PART I – BUSINESS AND GENERAL INFORMATION

Item 1. Business

OVERVIEW

IPM Holdings, Inc., formerly Minerales Industrias Corporation (“IPM” or the “Parent Company”) was incorporated on August 31, 1995 to engage in business as an investment holding company.

Its subsidiary, Basic Environmental Systems & Technologies, Inc. (“BEST”) was in turn established on September 15, 1999 to engage in contracting and consulting business for waste management, public cleansing, sanitation and general hygiene to provide comprehensive waste disposal services.

The Parent Company started commercial operations on September 4, 1995 with an initial capitalization of Php60.0 million. On October 27, 1997, the Company’s Board of Directors authorized the additional issuance of shares of stock amounting to Php60.0 million from the unissued portion of the Company’s authorized capital stock at a par value of Php1.00 per share.

On June 14, 1998, the Parent Company listed its shares of stock in the Philippine Stock Exchange. The Parent Company offered for subscription to the public, sixty million (60,000,000) unclassified common shares at an offer price equal to its par value of Php1.00 per share, increasing the Company’s capitalization to Php180.0 million. The offer accounted for 33.3% outstanding capital stock of the Company. Proceeds from the offering amounting to Php58.2 million were used to partly finance the additional equity investment in Orion Savings Bank Inc.

On December 10, 1999, the Parent Company’s stockholders and board of directors approved the increase in its authorized capital stock from 240.0 million shares to 740.0 million shares, all with par value of Php1.00. On the same date, the Board of Directors resolved to amend the Articles of Incorporation and By-Laws of the Company, changing the name of the Company to Multitech Investments Corporation. The resolutions were ratified and approved by the stockholders during its annual meeting in June 2000.

On July 26, 2007 and August 31, 2007, the Board of Directors and stockholders, respectively approved the amendment of the Articles of Incorporation in order to (a) change the corporate name of the company from Multitech Investments Corporation to Minerales Industrias Corporation, (b) change its principal office from Pasig City to Makati City and (c) change the primary purpose clause of the Company to reflect the shift from being an investment company to a mining company.

On September 24, 2007, the Securities and Exchange Commission (SEC) approved the change in company name and primary purpose. The change in registered address was subsequently approved by the SEC on January 14, 2008.

On December 29, 2009, the Board of Directors approved the private placement of a total of 10.0 million common shares out of the unissued authorized capital stock of the Company at a subscription price of Php1.00 per share. Of the total issue price of Php10.0 million, Php5.045 million was paid to the Company on December 31, 2009 while the balance was settled in full on February 1, 2010.

On January 29, 2010 and February 1, 2010, the Company’s shareholders paid for the outstanding subscriptions receivable amounting to Php3,655,000 and Php1,300,000, respectively.

On November 20, 2012, the Board of Directors approved the subscription of the IPM group of companies to a total of 500,000,000 shares out of the Php500,000,000 increase in the authorized capital stock of the Company previously approved by the stockholders, at a total subscription price of Php500,000,000, payable in cash. Also, the Board of Directors authorized the acquisition of 615,000,000 shares in Basic Environmental Systems and Technologies, Inc. (BEST) at par value of Php1 per share, which will constitute 75% of the resulting outstanding capital of BEST. BEST is a corporation engaged in contracting and consulting business for waste management, public cleansing, sanitation and general hygiene to provide comprehensive waste disposal services.

On February 8, 2013, the stockholders of the Parent Company representing at least two thirds of the outstanding capital stock approved the subscription by the following within the IPM group of companies or any of their designees/nominees to a total of 500,000,000 shares out of the Php500,000,000 increase in the authorized capital stock of the Parent Company previously approved by the shareholders, at a total subscription price of Php500,000,000, payable in cash: (a) IPM Construction and Development Corporation, Php350,000,000; (ii) IPM Environmental Services, Inc., Php100,000,000; and (b) IPM Realty and Development Corporation, Php50,000,000. On the same date, the stockholders approved the amendment of the primary purpose of the Parent Company to enable the Company to revert to being a holding company and give it more flexibility in looking for suitable investments.

On February 11, 2013 and February 12, 2013, the Parent Company received Php50,000,000 and Php450,000,000, respectively, as deposits for the said subscription to the proposed increase in the authorized capital stock of the Company.

On March 4, 2013, the Parent Company acquired shares in BEST and subscription rights from various stockholders of BEST amounting to Php450,000,000 and Php12,500,000, respectively, which resulted in the Company obtaining 75% interest in BEST, thereby treating BEST as its subsidiary starting March 4, 2013.

On June 11, 2013, the SEC approved the Parent Company's application for increase in authorized capital stock from Php240,000,000 to Php740,000,000 divided into 740,000,000 shares, with a par value of Php1 per share and the amendment of the primary purpose of the Parent Company to revert back to a holding company.

On July 18, 2013, the Board of Directors approved the increase in the authorized capital stock of the Parent Company from Php740,000,000 divided into 740,000,000 shares with a par value of Php1 per share to Php5,000,000,000 divided into 5,000,000,000 shares with a par value of Php1 per share. On the same date, the BOD approved the transfer of the principal address of the Parent Company from Room 322, 3rd Floor, LRI Design Plaza, 210 Nicanor Garcia Street, Barangay Sta. Cruz, Makati City to its current principal address, Unit 103, Ground Floor, Prestige Tower Condominium, F Ortigas Jr. Avenue Ortigas Center, Pasig City. These were subsequently approved by the shareholders on September 19, 2013. The SEC approved the amended articles of incorporation indicating the change of address on October 18, 2013.

On September 11, 2013, The Philippines Stock Exchange, Inc. (PSE) approved the application of the Parent Company to list the additional 500,000,000 common shares (the "Private Placement Shares") with a par value of Php1.00 per share, at a Subscription Price of Php1.00 per share. The Parent Company, the IPM Group, and Metropolitan Bank and Trust Company-Trust Banking Group ("Escrow Agent") executed an Escrow Agreement and Certification and Undertaking on November 15, 2013 and December 4, 2013, respectively, to implement the required lock-up of the Private Placement Shares.

On February 10, 2014, the Board of Directors approved the payment to BEST of Php22,875,000 representing 15% of the unpaid balance on the total subscription price for the 615,000,000 shares subscribed by the Parent Company in BEST.

On July 22, 2015 and October 21, 2015, the Board of Directors and stockholders, respectively approved the amendment of the Articles of Incorporation in order to (a) change the corporate name of the Parent Company from Minerales Industrias Corporation to IPM Holdings, Inc., (b) change its ticker symbol from “MIC” to “IPM”. The SEC approved the amended Articles of Incorporation indicating the change in the name of the Parent Company on November 25, 2015.

BUSINESS DESCRIPTION

The Parent Company embarked on its first strategic investment in August 1996, acquiring a 20% stake in Armstrong Securities, Inc. (ASI) in partnership with EBC Capital Corporation. Nine months later, the Parent Company, together with Tong Yang Group of Korea, established a thrift bank, Orion Savings Bank Inc. (the “Bank”). In 1998, the proceeds from the offering of shares to the public were used for the additional investment of the Parent Company in the Bank. The additional investment increased Parent Company’s ownership stake in the Bank from twenty percent (20%) to forty percent (40%).

To provide diversity in the portfolio, the Parent Company also invested in Altech Fabrication Industries, Inc., a manufacturer and contractor of aluminum building materials. The foregoing investment was subsequently sold in 1997.

In September 1999, Mr. Dante T. Tan acquired for Php294.25 million, a 59% equity stake in the Parent Company, equivalent to 107.0 million shares. Capitalizing on the strong showing of its investee companies, the Company sold Armstrong Securities Inc. and Orion Savings Bank to Golden Maple Holdings, Inc. and Harrigold Assets, Inc., respectively, for a total consideration of Php152.3 million in September 1999. The Parent Company then purchased Php191.0 million worth of shares of BW Resources Corporation (now known as “Fairmont Holdings Inc.”).

In November 1999, a Subscription Agreement was executed by and between the Parent Company and Mr. Dante T. Tan, for the latter to subscribe to sixty million (60,000,000) new common shares from the unissued authorized capital stock of the Company, for a total subscription price of Php60.0 million.

In May 2000, Mr. Dante T. Tan had asked for the rescission of the subscription agreement. Likewise, Mr. Tan also has written the Parent Company expressing his withdrawal of interest in further subscribing to the 500 million common shares of the Parent Company which shall come from the Company’s intended increase in authorized capital stock. The Board of Directors has since resolved to rescind the subscription contract on the 60.0 million common shares and to accept the withdrawal of interest in the subscription of the 500.0 million common shares of Mr. Tan.

In April 2002, a Subscription Agreement was signed between the Parent Company and the shareholders of Intercontinental Paper Industries, Inc. (IPII) where the latter will subscribe to the intended increase of authorized capital stock of 500,000,000 common shares and to the 60,000,000 million common shares from the unissued authorized capital stock of the Parent Company at Php1.00 par value. The new Subscribers will pay for the additional shares with 560,000,000 common shares (“IPII Shares”) with par value of Php1.00 per share. The IPII Shares represent 100% of the outstanding capital common stock of IPII. After the issuance by the Parent Company of the additional shares to the New Subscribers and the transfer of the New Subscribers’ IPII shares to the Parent Company, the paper manufacturing company shall be owned 100% by the Company.

In April 2007, the Subscription Agreement with Shareholders of Intercontinental Paper Industries Inc. (IPPI) was been rescinded.

After several years of looking for suitable investments, the Parent Company finally reached agreement with the IPM group of companies in late 2012 for: (i) the subscription by the IPM group to 500,000,000 shares of the Parent Company at a total subscription price of Php500,000,000, and (ii) the acquisition by the company of a 75% equity interest in BEST, a member company of the IPM group, using the proceeds of the IPM group subscription. These transactions were approved by the stockholders of the Parent Company representing at least two-thirds of the Parent Company's outstanding capital stock in its meeting on February 8, 2013. The subscription agreements and related documents to implement the transactions were executed on March 4, 2013.

The Parent Company's subsidiary, BEST, is engaged in contracting and consulting business for waste management, public cleansing, sanitation and general hygiene to provide comprehensive waste disposal services.

INDUSTRY TRENDS/COMPETITION

BEST is one of the few players in the solid waste management contracting industry which owns and operates its own sanitary landfill facility, having established the Morong Sanitary Landfill in 2008 to cater to the waste disposal needs of the cluster towns of Morong, Teresa, Baras and Cardona. In addition, it maintains under contract with its affiliate, IPM Environmental Services, Inc. (IPMESI), the latter's Quezon City Sanitary Landfill in Payatas which receives the solid waste of Quezon City. Moreover, it has a large fleet of dump trucks and other hauling/materials handling equipment that it uses for its waste collection and management contracts.

An emerging trend in the solid waste management industry is the so-called refuse-derived fuel (RDF) which involves the processing of solid waste into fuel for the cement and power generation industries, in substitution for coal. The production of RDF not only reduces industry's dependence on fossil fuels but also prevents the accumulation of waste matter in landfills, extending the latter's service life to the benefit of the general populace.

BEST is at the forefront of this new technology, through the first ever RDF facility constructed in the country, which is owned by a BEST affiliate, Mundo Verde Corporation, a joint venture with La Farge Industrial Ecology International, SA and IPM ESI. After this first facility which went into operation in early 2013, BEST is seen as the lead company within the IPM group to undertake additional RDF plants, utilizing waste collected in IPM ESI's Quezon City Landfill, transfer stations operated by another affiliate, IPM Construction and Development Corporation, and BEST's own landfill in Morong.

BEST is also in partnership with Lafarge Industrial Ecology International, SA ("LIEI") another RDF facility under Ecoedge Resources Corporation ("Ecoedge"). Ecoedge is 60% owned by BEST and 40% owned by LIEI. The total cost of the project amounted to Php127 million. The plant started operations in December 2014, with a rated capacity of up to 150 tons of RDF per day.

In the next several years, the Company intends to focus on growing BEST through the expansion of its municipal solid waste contracting business and establishment of additional facilities for the production of RDF. BEST is thus envisioned to provide significant income growth for the Company and its shareholders, particularly in light of the growing demand for renewable energy sources amid the burgeoning waste production of the rapidly growing urban population in the

country, and BEST's unique position as a pioneer in RDF technology and its ready access to RDF feedstock.

(3) DIVIDENDS

No dividends, either in cash or stock, were declared on the shares for the last three (3) years, i.e., 2015, 2014 and 2013, since the Parent Company is in a deficit position. There are no restrictions that limit the ability to pay dividends on common equity but the Company, as a general rule, shall only declare from surplus profit as determined by the Board of Directors so long as such declaration will not impair the capital of the Company.

(4) RECENT SALES OF UNREGISTERED SECURITIES

No sales of unregistered securities or shares of the Parent Company were made during the past five (5) years

Item 6. Management's Discussion and Analysis or Plan of Operation

PLAN OF OPERATIONS

The Company's controlling stake in Basic Environmental Systems Technologies, Inc. (BEST) continues to provide a steady stream of revenues and income. In the next several years, the Company intends to focus on growing BEST through the expansion of its municipal solid waste contracting business and establishment of additional facilities for the processing and conversion of solid waste into alternative fuel for the cement and power generation industries. BEST is also targeting to tap the specialized waste handling and disposal requirements of the various industrial zones located all over the country.

The Company also intends to venture in developing BEST's business in other branches of waste management, including the following:

- Bio medical waste treatment
- Hazardous waste management

- Construction and demolition waste management
- Commercial and industrial waste management
- Providing consultancy and monitoring services to waste collection systems to comply with Republic Act No. 9003 and professionalize the industry.

On July 22, 2015 and October 21, 2015, the Board of Directors and stockholders, respectively approved the amendment of the Articles of Incorporation in order to (a) change the corporate name of the Parent Company from Minerales Industrias Corporation to IPM Holdings, Inc., (b) change its ticker symbol from “MIC” to “IPM”. The SEC approved the amended Articles of Incorporation on November 25, 2015. With the advent of climate change and a growing environmental consciousness, the move was also seen as a major step towards opening the publicly-listed company to strategic partners who believe that, indeed, there is money in trash.

MANAGEMENT’S DISCUSSION AND ANALYSIS

Management’s discussion and analysis of the Parent Company and its subsidiary (the “Group”) financial position and results of operations should be read in conjunction with the attached audited consolidated financial statements of the Parent Company and its subsidiary.

2015

Income

Consolidated revenues for 2015 amounted to Php318.50 million, up by Php35.90 million or 12.70% from Php282.60 million posted in 2014. Revenues consisted of the following: Php260.45 million from service income; Php56.53 million from rental income; Php1.51 million from interest income; and Php0.01 million from other income.

Expenses

Cost of services increased by Php21.92 million or 14.67% from Php149.43 million in 2014 to Php171.35 million in 2015. This is mainly due to the increase in equipment rental costs associated with the bigger volume of business.

On the other hand, general and administrative expenses for the year declined by Php5.72 million or 15.87%, from Php36.04 million in 2014 to Php30.32 million in 2015. This was mainly due to the decreases in taxes and licenses, provision for impairment losses and professional fees.

Net Income

The twelve month operation of the Group resulted in a net income of Php77.71 million for 2015, which is higher by Php16.48 million or 26.92%, than the net income of Php61.23 million posted in 2014.

Financial Condition

| Statements of financial position data | December 31,2015 | December 31,2014 | % Inc/(Dec) |
|---------------------------------------|------------------|------------------|-------------|
| Total Current Assets | 692,749,113 | 443,171,284 | 56.32% |
| Total Assets | 1,078,527,900 | 888,549,822 | 21.38% |
| Total Current Liabilities | 204,729,820 | 92,757,391 | 120.72% |
| Total Liabilities | 205,435,939 | 93,173,867 | 120.49% |
| Total Equity | 873,091,961 | 795,375,955 | 9.77% |

The material changes in the statements of financial position are as follows:

Consolidated total assets increased by Php189.98 million or 21.38% to Php1.08 billion in 2015 from Php888.55million in 2014.

- Cash and cash equivalents went up282.13% from Php21.32 million in 2014 to Php81.48 million in 2015. This was mainly due to the availment of a working capital loan amounting to Php100 million and the collection of long-outstanding receivables of about Php37.58 million.
- Trade and other receivables increased by 46.85% from Php404.20 million in 2014 to Php593.57 million in 2015. This was largely due to the increase in services rendered to IPMESI to undertake the Operation and Maintenance of Integrated Solid Waste Management Facility for a fixed monthly fee of Php15.58 million.
- Noncurrent assets went down by 13.38% from Php445.38 million in 2014 to Php385.78 million in 2015. This was mainly due to the collection of long-outstanding receivables from IPM ESI amounting to Php37.58 million and the annual set-up of depreciation and amortization.

Total consolidated liabilities amounted to Php205.43 million in 2015, up Php112.26 million or 120.49%, from Php93.17 million in 2014.The increase was mainly due to the availment of a working capital loan from a local bank.

Total stockholders' equity was increased by Php77.72 million or 9.77% from Php795.38 million in 2014to Php873.09 million in 2015, reflecting the income posted in the current year.

Current ratio decreased from 4.78x in 2014 to 3.38x in 2015; net working capital stood at Php488.02 million in 2015, versus the Php350.41 million in 2014.

Liquidity and Capital Resource

For the year ended December 31, 2015, net cash used in operating activities amounted to Php39.66 million as compared to the Php15.65 million net cash provided by operating activities in 2014. This reversal is mainly due to the increase in receivables and the decrease of payables from related parties.

Net cash provided by investing activities amounted to Php0.42 million in 2015 as compared to Php51.13 million in 2014. The difference is in short-term deposit amounting to Php101.22 million which was partly offset by the increase in investment amounting to Php48.60 million in 2014.

Net cash provided by financing activities amounted to Php99.39 million in 2015 as compared to the net cash used in financing activities of Php80.69 million in 2014 including the Php20.25 million proceeds from the issuance of shares stock.

2014

Income

Consolidated revenues for the year rose to Php282.60 million from Php268.52 million in 2013, or a growth to 5.24%.This is broken down as follows: Php245.82 million from service income;

Php35.48 million from rental income; Php1.23 million from interest income; and Php0.07 million from other income.

Expenses

Cost of services for the year minimal increased by 5.96% from Php141.02 million in 2013 to Php149.43 million in 2014. This is attributable mainly to the increases in equipment rental for the maintenance of the sanitary landfills, manpower training and consumption of chemical sprays.

General and administrative expenses for the year went up by 49.93% to Php36.04 million from Php24.04 million in 2013. This was mainly due to increases in taxes and licenses, retirement cost provisions, professional fees, salaries and allowance for doubtful accounts.

Net Income

The twelve month operation of the Group ended with a net income of Php61.23 million, an increase of Php19.38 million or 46.30% over the Php41.85 million reported in 2013. This is largely due to the one-time listing expense of Php25.22 million recognized in 2013.

Financial Condition

| Statements of financial position data | December 31, 2014 | December 31, 2013 | % Inc/(Dec) |
|--|--------------------------|--------------------------|--------------------|
| Total Current Assets | 443,171,284 | 610,292,719 | (27.38%) |
| Total Assets | 888,549,822 | 1,033,934,372 | (14.06%) |
| Total Current Liabilities | 92,757,391 | 319,895,106 | (71.00%) |
| Total Liabilities | 93,173,867 | 320,070,974 | (70.89%) |
| Total Equity | 795,375,955 | 713,863,398 | 11.42% |

The material changes in the statements of financial position are as follows:

The Company's consolidated total assets declined by 14.06% from Php1.03 billion in 2013 to Php888.55 million in 2014.

- Cash and cash equivalents dropped by 39.49% from Php35.24 million in 2013 to Php21.32 million in 2014. The decrease was mainly due to the settlement of long term liabilities.
- Trade and other receivables decreased by 10.01% from Php449 million in 2013 to Php404.20 million in 2014, resulting from account reclassification.
- Other current assets decreased by 30.62% from Php24.40 million in 2013 to Php16.93 million in 2014 due to the provision for impairment on its prepaid taxes, creditable withholding taxes and input VAT.
- Noncurrent assets went up 5.13% from Php423.64 million in 2013 to Php445.38 million in 2014, resulting from account reclassification.

Total consolidated liabilities posted a 70.89% decrease from Php320.07 million in 2013 to Php93.17 million in 2014. The decrease was mainly due to the settlement of the Company's obligations to related parties as well as the full settlement of its bank loan.

Total stockholders' equity amounted to Php795.37 million, up by 11.42% from Php713.86 million in 2013.

Current ratio increased from 1.91x in 2013 to 4.78x in 2014 due to the settlement of the Company's short term obligations. Net working capital thus stood at Php350.41 million in 2014, as compared to Php290.40 million in 2013.

Liquidity and Capital Resource

For the year ended December 31, 2014, net cash used in operations amounted to Php15.65 million as compared to the Php559.77 million net cash provided by operations in 2013. This reversal is mainly due to the settlement of obligations to related parties in 2014.

Net cash provided by investing activities amounted to Php51.13 million in 2014 as compared to Php4.48 million net cash used in investing activities in 2013, due to the decrease in short-term deposit amounting to Php101.22 million and increase in investment in joint venture amounting to Php48.60 million.

Net cash used in financing activities amounted to Php80.69 million in 2014 as compared to Php495.79 million net cash provided by financing activities in 2013, attributable mainly to the Php500 million proceeds from the issuance of shares of stock.

2013

Income

Total consolidated income for the year amounted to Php268.52 million, 33.84% higher than the Php200.63million posted in 2012. This is attributable mainly to the increase in revenues from consultancy and field services as well as from provision of hauling services for the RDF production of affiliate, Mundo Verde Corporation.

Expenses

Cost of services for the year increased by 24.21%, from Php114.39 million in 2012 to Php142.08 million in 2013. Increases in cost were experienced across the board, including manpower, fuel and lubricants, as well as repairs and maintenance, resulting from the overall expansion in the volume of business.

General and administrative expenses for the year went up by 119% from Php10.51 million in 2012 to Php22.97 million in 2013. This was mainly due to increases in taxes and licenses; salaries due to the beef up of management personnel; and other operating expenses.

Listing expense amounting to Php25.22 million was recognized in the consolidated statements for 2013, as a result of the application by the Company's external auditors of the reverse-acquisition mode of consolidating the Company's financial statements with those of BEST. The listing fee is the difference between the Company's acquisition cost of 75% of BEST against the fair value of BEST as of acquisition date in 2013.

Net Income

The twelve month operation of the Company ended with a net income of Php41.85 million, slightly down 5.7% as compared to the Php54.20 million reported in 2012 largely due to the listing expense of Php25.22 million and the higher provision for income tax in 2013.

Financial Condition

| Statements of financial position data | December 31, 2013 | December 31, 2012 | % Inc/(Dec) |
|--|--------------------------|--------------------------|--------------------|
| Total Current Assets | 610,292,719 | 483,072,813 | 26.34% |
| Total Assets | 1,033,934,372 | 937,280,926 | 10.31% |
| Total Current Liabilities | 319,895,106 | 791,305,889 | (59.57%) |
| Total Liabilities | 320,070,974 | 791,451,505 | (59.56%) |
| Total Equity | 713,863,398 | 145,829,421 | 389.52% |

The material changes in the statements of financial position are as follows:

The Company's consolidated total assets rose by 10.31% from Php937.28 million in 2012 to Php1.03 billion in 2013.

- Cash and cash equivalents declined by 66% from Php103.7 million in 2012 to Php35.24 million in 2013. The decrease was mainly due to the settlement of long term liabilities.
- Trade and other receivables went up by 79.94% from Php249.62 million in 2012 to Php449.17 million in 2013. This is mainly attributable to the increase in contract services the company entered into during 2013.
- Other current assets decreased by 18% from Php29.76 million in 2012 to Php24.40 million in 2013 due to the provision for impairment on its prepaid taxes, creditable withholding tax and input VAT.
- Noncurrent assets declined by 6.73% from Php454.21 million in 2012 to Php423.64 million in 2013 due to the annual set-up of depreciation and amortization.

Total consolidated liabilities posted a 59.56% decrease from Php791.45 million in 2012 to Php320.07 million in 2013. The decrease was mainly due to the settlement of the Company's obligations to related parties.

Total stockholders' equity went up by 389.52% from P145.83 million in 2012 to Php713.86 million in 2013. The increase is primarily due to the increase in the Company's authorized capital stock as well as recognized net profit and revaluation surplus.

Current ratio increased from .61x in 2012 to 1.91x in 2013 due to the settlement of the Company's short term obligations. Net working capital thus stood at Php290.40 million in 2013, as compared to a negative balance of Php308.23 million in 2012.

Liquidity and Capital Resource

For the year ended December 31, 2013, net cash used in operations amounted to Php559.77 million as compared to the Php282.00 million net cash provided by operations in 2012. This reversal is mainly due to the settlement of obligations to related parties.

Net cash used in investing activities amounted to Php4.48 million in 2013 as compared to Php354.91 million in 2012, due to major additions to property and equipment in 2012.

The Corporation is not aware of any person holding more than 5% of the shares of the Corporation under a voting trust or similar agreement which may result in a change in control of the Corporation.

(4) Changes in Control

The Securities and Exchange Commission approved the Corporation's increase in authorized capital stock from Php240,000,000 to Php740,000,000 divided into 740,000,000 shares with a par value of Php1.00 each share on June 11, 2013. The IPM group of companies subscribed to the 500,000,000 new common shares issued by the Corporation. The stock certificates representing 500,000,000 new common shares was issued in favor of the IPM group of companies on June 19, 2013 following payment of the corresponding documentary stamp taxes on the original issuance of such shares. On October 17, 2014, the IPM group disposed 30,000,000 shares of the outstanding capital stock of the Parent Company out of their 500,000,000 million shares subscription. The IPM group of companies now own approximately 68.11% of the resulting outstanding capital stock of the Corporation, thereby acquiring control of the Corporation.

Item 12. Certain Relationships and Related Transactions

Except as disclosed in Note 15 of the audited consolidated financial statements for 2015 and 2014, there were no other transactions entered into with related parties.

PART IV – CORPORATE GOVERNANCE

Item 13. Corporate Governance

Please refer to the attached Annual Corporate Governance Report (“ACGR”).

Board of Directors

The Board of Directors consists of 7 directors, two of whom are executive officers and five are non-executive directors. The Board's membership reflects a blend of different financial and commercial experiences.

| Directors | Executive Officers | Non-executive Officers | Independent Director |
|------------------------------------|---------------------------|-------------------------------|-----------------------------|
| Alfredo P. Javellana II | | √ | √ |
| Gener T. Mendoza | | √ | |
| Antonio Victoriano F. Gregorio III | | √ | |
| Isabelita P. Mercado | √ | | |
| William D. Ty | | | √ |
| Francis Neil P. Mercado | √ | | |
| Joseph Quintin Y. Lao | | √ | |

All non-executive officers are independent of management and free from any business or other relationship with MIC which could materially interfere with the exercise of their independent judgment.

The Nomination Committee ensures that there is a formal and transparent procedure for the appointment of new Directors of the Board. Where appropriate, every director receives training, taking into account his individual qualifications and experience. Training is also available on an ongoing basis to meet individual needs.

The term of office of all directors, including independent directors and officers shall be one (1) year and until the successors are duly elected and qualified.

Board Process

Members of the Board met regularly throughout the year. Their responsibilities to the Company included the:

- a. review and approval of the interim and annual financial performance;
- b. approval of the Company's key strategic and operational matters;
- c. approval of major investments and funding decision;
- d. monitoring of internal control; and
- e. identification and management of the principal risks of the Company.

Board members were sufficiently notified of ensuing meetings and they worked on an agreed agenda in reviewing the key activities of the business. Relevant papers and presentations, as necessary, were distributed to enable the Board to deliberate on matters effectively. Minutes of the previous meetings are placed on the agenda of the Board.

The Corporate Secretary is responsible to the Board and is available to individual Directors in respect of Board procedures. The post is currently occupied by Atty. Ana Maria A. Katigbak.

Committees

The Board has delegated authority to the following committees on specific matters. All of the Committee have formal terms of reference.

Audit Committee

Members:

- Atty. Alfredo P. Javellana II (chairman/independent director)
- William D. Ty (independent director)
- Francis-Neil P. Mercado

The Audit Committee functions under the terms of reference approved by the Board. It meets at least twice a year and its roles include the review of the financial and internal reporting process, the system of internal control and management of risks and the external and internal audit process. The Audit Committee reviews the scope and results of the audit with external auditors and obtains external legal or other independent professional advice where necessary. The Audit Committee reports directly to the Board.

Other functions of the Audit Committee include the recommendation of the appointment or re-appointment of external auditors and the review of audit fees.

Nomination Committee and Compensation Committee

Members:

- Gener T. Mendoza (chairman)
- Atty. Antonio Victoriano F. Gregorio III
- Joseph Quintin Y. Lao
- William D. Ty (independent director)

The Committee, which meets as necessary, assesses and recommends to the Board candidates for appointment to executive and non-executive directors positions. The Committee also makes recommendations to the Board on its composition.

Note: No salary or other compensation package was provided to the directors and other Executive Officers.

Compliance Officer

During the meeting of the Board of Directors of Minerales Industrias Corporation held on May 27, 2015, Atty. Ana Maria A. Katigbak was re-appointed as Compliance Officer (“CO”) and Mr. Roberto E. Cabarco as Deputy Corporate Information Officer. He was also designated as the Company’s Compliance Officer.

The CO is responsible for ensuring that the Company’s corporate principles are consistently adhered to throughout the organization. The CO acts independently and her role is to supply the top management with the necessary information on whether the organization’s decisions comply with professional rules and regulations, internal directives, regulatory authorities, and the statutory law.

Relation with Shareholders

The directors place a high importance on maintaining good relationships with the shareholders and ensure that they are kept informed of significant Company’s development.

The Company encourages shareholders to attend its annual stockholders’ meetings, which provide opportunities for shareholders to ask questions of the board.

INDEPENDENT AUDITORS' REPORT

The Stockholders and the Board of Directors
IPM Holdings, Inc.
(Formerly Minerales Industrias Corporation)
Unit 103, Ground Floor, Prestige Tower Condominium
F. Ortigas Jr. Avenue Ortigas Center
Pasig City

We have audited the accompanying consolidated financial statements of IPM Holdings, Inc. and Subsidiary, which comprise the consolidated statements of financial position as at December 31, 2015 and 2014, and the consolidated statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2015, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of IPM Holdings, Inc. and Subsidiary as at December 31, 2015 and 2014, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2015 in accordance with Philippine Financial Reporting Standards.

AND SUBSIDIARY**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

IPM Holdings, Inc., formerly Minerales Industrias Corporation (the Parent Company) and its subsidiary, Basic Environmental Systems and Technologies, Inc. (BEST) (collectively referred to as “the Group”), were incorporated in the Philippines. The Group’s registered office address is Unit 103, Ground Floor, Prestige Tower Condominium, F. Ortigas Jr. Avenue, Ortigas Center, Pasig City.

The Parent Company was incorporated and organized in the Republic of the Philippines on August 31, 1995 to engage in the business of investment; to own, hold, use, sell, assign, transfer, mortgage, pledge, exchange or otherwise dispose of real and personal property of every kind and description; and, to manage any business, joint venture, firm partnership, corporation, institution or entity or otherwise act as holding or management corporation thereof.

BEST was incorporated in the Philippines on September 15, 1999 and is engaged in contracting and consulting business for waste management, public cleansing, sanitation and general hygiene to provide comprehensive waste disposal services.

On December 20, 1999, the stockholders approved the increase in the authorized capital stock of the Parent Company from ₱240,000,000 divided into 240,000,000 shares with a par value of ₱1 per share to ₱740,000,000 divided into 740,000,000 shares with a par value of ₱1 per share. On August 31, 2007, the stockholders approved the delegation to the Board of Directors (BOD) of the prerogative to determine the investors to whom the shares may be issued amounting to an aggregate of ₱560,000,000 (₱500,000,000 coming from the increase in authorized capital stock and ₱60,000,000 from the unissued capital stock of the Parent Company). In 2010, the Parent Company issued additional 10,000,000 shares to private investors.

On July 26, 2007 and August 31, 2007, the BOD and stockholders, respectively, approved the change in the Parent Company’s primary purpose from holding company to mining. The Securities and Exchange Commission (SEC) approved the change on January 14, 2008.

On November 20, 2012, the BOD approved the issuance of 500,000,000 shares at par value of ₱1 per share in favor of the following companies within IPM Group: (a) IPM Construction and Development Corporation (IPMCDC), 350,000,000; (b) IPM Environmental Services, Inc. (IPMESI), 100,000,000; and (c) IPM Realty and Development Corporation (IPMRDC), 50,000,000. On the same date, the BOD authorized the acquisition of 615,000,000 shares in Basic Environmental Systems and Technologies, Inc. (BEST) at par value of ₱1 per share, which will constitute 75% of the resulting outstanding capital of BEST. Further, the Parent Company was authorized to partially pay for the 615,000,000 shares in BEST as follows: (a) ₱450,000,000 for the 600,000,000 shares that will come from the increase in authorized capital stock of BEST; and (b) ₱12,500,000 for the subscription rights to 15,000,000 shares in BEST to be acquired from the original shareholders of BEST.

On February 8, 2013, the stockholders representing at least two thirds of the outstanding capital stock of the Parent Company approved the subscription by the IPM Group of companies or any of their designees or nominees to a total of 500,000,000 shares out of the ₱500,000,000 increase in the authorized capital stock of the Parent Company, at a total subscription price of ₱500,000,000, payable in cash: (a) IPMCDC, ₱350,000,000; (b) IPMESI, ₱100,000,000; and (c) IPMRDC,

₱50,000,000. On the same date, the stockholders approved the amendment of the primary purpose of the Parent Company to enable the Parent Company to revert to being a holding company and give it more flexibility in looking for suitable investments.

On February 11, 2013 and February 12, 2013, the Parent Company received ₱50,000,000 and ₱450,000,000, respectively, as deposits for the said subscriptions to the proposed increase in the authorized capital stock of the Parent Company. Consequently, the Parent Company became a subsidiary of IPMCDC upon receipt of the deposit as per the subscription agreement.

On March 4, 2013, the Parent Company acquired 615,000,000 shares in BEST representing 75% interest and paid ₱462,500,000, ₱12,500,000 of which was paid to the original shareholders of BEST as consideration to the subscription rights acquired.

On June 11, 2013, the SEC approved the Parent Company's application for increase in authorized capital stock from 240,000,000 to 740,000,000 shares with a par value of ₱1 per share and the amendment of the primary purpose of the Parent Company to revert back to a holding company. The deposits for stock subscriptions by IPMCDC, IPMESI and IPMRDC were then transferred to common stocks following the approval of the increase in authorized capital stock.

On July 18, 2013, the BOD approved the increase in the authorized capital stock of the Parent Company from ₱740,000,000 divided into 740,000,000 shares with a par value of ₱1 per share to an amount not exceeding ₱5,000,000,000 divided into 5,000,000,000 shares with a par value of ₱1 per share. On the same date, the BOD approved the transfer of the principal address of the Parent Company from Room 322, 3rd Floor, LRI Design Plaza, 210 Nicanor Garcia Street, Barangay Sta. Cruz, Makati City to its current principal address, Unit 103, Ground Floor, Prestige Tower Condominium, F.Ortigas Jr. Avenue Ortigas Center, Pasig City. These were subsequently approved by the shareholders on September 19, 2013. On October 18, 2013, the SEC approved the amended articles of incorporation indicating the change of address and increase in authorized capital stock.

On February 10, 2014, the BOD approved the payment to BEST of ₱22,875,000 representing 15% of the remaining subscription payable.

On July 22, 2015, the BOD approved the change in the name of the Parent Company from "Minerales Industrias Corporation" to "IPM Holdings, Inc." and the change in the Parent Company's ticker symbol from "MIC" to "IPM". These were subsequently approved by the shareholders on October 21, 2015. The SEC approved the amended articles of incorporation indicating the change in the name of the Parent Company on November 25, 2015.

The Parent Company's shares are publicly traded in the Philippine Stock Exchange (PSE) under the ticker "IPM". As of December 31, 2015 and 2014, the top four beneficial shareholders of the Parent Company are the following:

| | Percentage of ownership |
|--------|----------------------------|
| IPMCDC | 51% |
| IPMESI | 10% |
| IPMRDC | 7% |
| Public | 32% |

IPMCDC, IPMESI and IPMRDC were all incorporated in the Philippines. The ultimate parent company of the Group is IPMCDC.

Reverse acquisition

Before the Parent Company acquired 75% interest in BEST, majority of the shareholders of BEST are also the shareholders of IPMCDC, IPMESI and IPMRDC. Hence, the Parent Company's acquisition of 75% interest in BEST effectively qualifies as a reverse acquisition since BEST is the combining entity whose owners as a group retain or receive the largest portion of the voting rights in the combined entity. Equity reserve pertains to the difference in capital structure of IPM and BEST and recognition of deficit of IPM during the date of acquisition, as the retained earnings of the consolidated financial statements represents retained earnings of BEST before acquisition adjusted by post-acquisition results of the Group.

Since the Parent Company is not a business as defined in PFRS 3, *Business Combination*, paragraph B7, the transaction did not qualify a business combination, but a share-based payment transaction whereby BEST has received the net assets of the Parent Company together with the listing status of the Parent Company.

The consolidated financial statements reflects the substance of the transaction which is that BEST is the continuing entity, therefore, the principles and guidance on the preparation and presentation of the consolidated financial statements in a reverse acquisition set out in PFRS 3 were applied in this transaction. However, the listing status did not qualify for recognition as an intangible asset, and therefore expensed in profit or loss.

In 2013, listing expense was recognized in profit or loss and equity reserve at the date of acquisition. Computation of listing expense follows:

| | |
|--|--------------|
| Fair value of BEST at acquisition date | ₱650,295,426 |
| Interest acquired by Parent Company | 75% |
| | <hr/> |
| | 487,721,570 |
| Cash paid by Parent Company | 462,500,000 |
| | <hr/> |
| | ₱25,221,570 |
| | <hr/> <hr/> |

The accompanying consolidated financial statements were authorized for issue by the BOD, as endorsed by the Audit Committee, on March 30, 2016.

2. Summary of Significant Accounting Policies

Basis of Preparation

The accompanying consolidated financial statements have been prepared using the historical cost basis. These financial statements are presented in Philippine Peso (₱), the Group's functional currency. All amounts are rounded to the nearest Philippines Peso unless otherwise indicated.

Statement of Compliance

The consolidated financial statements have been prepared in accordance with the Philippine Financial Reporting Standards (PFRS).

Basis of Consolidation

The accompanying consolidated financial statements prepared following a reverse acquisition are issued under the name of the Parent Company (legal parent or accounting acquiree) but is a continuation of the financial statements of BEST (legal subsidiary or accounting acquirer). The accompanying consolidated financial statements comprise the financial statements of the Parent Company and BEST.

The consolidated financial statements are prepared based on the principles of reverse acquisition involving a non-trading shell company. The accounting acquiree is fully consolidated from the date of acquisition or incorporation, being the date on which the accounting acquirer obtains control, and continues to be consolidated until the date that such control ceases.

All intra-group balances, transactions and unrealized gains and losses resulting from intra-group transactions are eliminated in full.

Noncontrolling interest (NCI) represent the portion of profit or loss and the net assets not held by the Group and are presented separately in the consolidated statements of comprehensive income and within equity in the consolidated statements of financial position and consolidated statements of changes in equity.

Acquisitions of NCI are accounted for using the acquisition method, whereby the Group considers the acquisition of NCI as an equity transaction. Any premium or discount on subsequent purchases from NCI shareholders is recognized directly in equity and attributed to the owners of the parent.

Assessment of Control

Control is achieved when the accounting acquirer is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

The accounting acquirer re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation begins when the accounting acquirer obtains control over the accounting acquiree and ceases when the accounting acquirer loses control of the accounting acquiree. Assets, liabilities, income and expenses of the accounting acquiree are included in the consolidated statements of financial position and consolidated statement of comprehensive income from the date the accounting acquirer gains control at the accounting acquiree until the date the accounting acquirer loses the control.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the accounting acquirer and to the NCI, even if this results in the NCI having a deficit balance. When necessary, adjustments are made to the consolidated financial statements of the accounting acquiree to bring its accounting policies in line with the accounting policies of the accounting acquirer.

As of December 31, 2015 and 2014, NCI pertains to the 25% ownership of individuals and companies other than the Parent Company of BEST. The financial information of BEST, with material NCI, is provided below. This information is based on amounts before inter-company eliminations.

| | 2015 | 2014 |

| Net income attributable to material NCI | 20,174,304 | 16,222,243 |

There are no significant restrictions on the Group's ability to use assets or settle liabilities within the Group. There is no difference on the voting rights of non-controlling interests as compared to majority stockholders.

Adoption of New and Amended Accounting Standards and Interpretations

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following amended PFRS, which became effective on January 1, 2015. Except as otherwise indicated, the adoption of these new accounting standards and amendments have no material impact on the consolidated financial statements.

- PAS 19, *Employee Benefits - Defined Benefit Plans: Employee Contributions* (Amendments)
- *Annual Improvements to PFRSs (2010-2012 cycle)*
The Annual Improvements to PFRSs (2010-2012 cycle) contain non-urgent but necessary amendments to the following standards:
 - PFRS 2, *Share-based Payment - Definition of Vesting Condition*
 - PFRS 3, *Business Combinations - Accounting for Contingent Consideration in a Business Combination*
 - PFRS 8, *Operating Segments - Aggregation of Operating Segments and Reconciliation of the Total of the Reportable Segments' Assets to the Entity's Assets*
 - PAS 16, *Property, Plant and Equipment*, and PAS 38, *Intangible Assets - Revaluation Method - Proportionate Restatement of Accumulated Depreciation*
 - PAS 24, *Related Party Disclosures - Key Management Personnel*
- *Annual Improvements to PFRSs (2011-2013 cycle)*
The Annual Improvements to PFRSs (2011-2013 cycle) contain non-urgent but necessary amendments to the following standards:
 - PFRS 3, *Business Combinations - Scope Exceptions for Joint Arrangements*
 - PFRS 13, *Fair Value Measurement - Portfolio Exception*
 - PAS 40, *Investment Property*

There are new PFRS, amendments, annual improvements and interpretations to existing standards that are effective for periods subsequent to 2015 and these will be adopted on their effectivity dates in accordance with the transition provisions. Except as otherwise stated, these amendments and improvements to PFRS and new standard are not expected to have any significant impact on the consolidated financial statements.

Effective in 2016

- PAS 16, *Property, Plant and Equipment*, and PAS 38, *Intangible Assets - Clarification of Acceptable Methods of Depreciation and Amortization* (Amendments)
- PAS 16, *Property, Plant and Equipment*, and PAS 41, *Agriculture - Bearer Plants* (Amendments)
- PAS 27, *Separate Financial Statements-Equity Method in Separate Financial Statements* (Amendments)

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying PFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively. For first-time adopters of PFRS electing to use the equity method in its separate financial statements, they will be required to apply this method from the date of transition to PFRS. The amendments are effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments will not have an impact on the Group's consolidated financial statements since the Group is already using equity accounting. The Group is currently assessing the impact of these amendments in the separate financial statements of the Parent Company.

- PFRS 10, *Consolidated Financial Statements* and PAS 28, *Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- PFRS 11, *Joint Arrangements - Accounting for Acquisitions of Interests in Joint Operations* (Amendments)
- PFRS 14, *Regulatory Deferral Accounts*
- *Annual Improvements to PFRSs (2012-2014 cycle)*
The Annual Improvements to PFRSs (2012-2014 cycle) are effective for annual periods beginning on or after January 1, 2016.

The following new standard issued by the International Accounting Standards Board (IASB) has not yet been adopted by Financial Reporting Standards Council (FRSC), Board of Accountancy (BOA) and Professional Regulation Commission (PRC)

- IFRS 15, *Revenue from Contracts with Customers*
IFRS 15 was issued in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more

structured approach to measuring and recognizing revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Group is currently assessing the impact of IFRS 15 and plans to adopt the new standard on the required effective date once adopted locally.

- **IFRS 16, *Leases***

This standard requires lessees to account for all leases under a single on-balance sheet model (subject to certain exemptions) in a similar way to finance leases under PAS 17. Lessees recognize a liability to pay rentals with a corresponding asset, and recognize interest expense and depreciation separately. The new standard includes two recognition exemptions for lessees - leases of 'low-value' assets (e.g., personal computer) and short-term leases (i.e., leases with a lease term of 12 months or less). Reassessment of certain key considerations (e.g., lease term, variable rents based on an index or rate, discount rate) by the lessee is required upon certain events. Lessor accounting is substantially the same as today's lessor accounting, using PAS 17's dual classification approach. IFRS 16 is effective for annual periods beginning on or after January 1, 2019. Earlier application is permitted for entities that apply IFRS 15, *Revenue from Contracts with Customers* at or before the date of initial application of IFRS 16. The Group is currently assessing the impact of IFRS 16 and plans to adopt the new standard on the required effective date, once adopted locally.

Cash

Cash includes cash on hand and deposits held on demand with banks that are carried in the consolidated statement of financial position at face amount and earn interest based on the prevailing bank deposit rates. Cash equivalents are short term, highly liquid investments that are already convertible to known amounts of cash with maturities of three months or less from the date of placement and are subject to an insignificant risk of changes in value.

Financial Instruments

Date of recognition

The Group recognizes a financial asset or a financial liability on the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the trade date.

Initial recognition

All financial assets are initially recognized at fair value. Except for financial assets at fair value through profit or loss (FVPL), the initial measurement of financial assets includes transaction costs. The Group classifies its financial assets in the following categories: financial assets at FVPL, held-to-maturity (HTM) investments, available-for-sale (AFS) financial assets, and loans and receivables. Financial liabilities are classified as either financial liabilities at FVPL or other financial liabilities. The classification depends on the purpose for which the investments were acquired and whether these are quoted in an active market. Management determines the classification of its investments at initial recognition and, where allowed and appropriate, re-evaluates such designation at every reporting date.

Financial instruments are classified as liability or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits.

As of December 31, 2015 and 2014, the Group's financial instruments are in the nature of loans and receivables and other financial liabilities.

Day 1 profit

Where the transaction price in a non-active market is different from the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value ('Day 1' profit or loss) in profit or loss unless it qualifies for recognition as some type of asset or liability. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' profit or loss amount.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not designated as AFS financial assets or financial assets at FVPL.

After initial measurement, loans and receivables are subsequently measured at amortized cost using the effective interest rate method, less any allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. The amortization is included in the interest income in profit or loss. The losses arising from impairment of such loans and receivables are recognized as "Provision for impairment losses" in profit or loss.

This accounting policy relates to the Group's "Cash", "Receivables", "Deposits" and "Due from a joint venture".

Other financial liabilities

Other financial liabilities pertain to issued financial instruments that are not classified or designated as at FVPL and contain contractual obligations to deliver cash or another financial asset to the holder or to settle the obligation other than the exchange of a fixed amount of cash. After initial measurement, other financial liabilities are subsequently measured at amortized cost using the effective interest rate. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate.

This accounting policy applies primarily to the Group's "Trade and other payables", "Due to related parties", "Loans payable" and other obligations that meet the above definition (other than liabilities covered by other accounting standards, such as income tax payable).

Impairment of Financial Assets

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is

measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Loans and receivables

For loans and receivables carried at amortized cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognized, are not included in a collective assessment for impairment.

If there is objective evidence that an impairment loss on loans and receivables carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the financial assets' original effective interest rate (i.e., the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss shall be recognized in profit or loss during the period in which it arises.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

In relation to loans and receivables, a provision for impairment is made when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the Group will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount of the receivable is reduced through the use of an allowance account. Impaired loans and receivables are derecognized when they are assessed as uncollectible.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of such credit risk characteristics as past-due status and term.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the Group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. Estimates of changes in future cash flows reflect, and are directionally consistent with the changes in related observable data from period to period (such as changes in unemployment rates, property prices, commodity prices, payment status, or other factors that are indicative of incurred losses in the Group and their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any difference between loss estimate and actual loss experience.

Derecognition of Financial Assets and Liabilities

Financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of financial assets) is derecognized when:

- a. the right to receive cash flows from the asset has expired;
- b. the Group retains the right to receive cash flows from the asset, but has assumed as obligation to pay them in full without material delay to a third party under a “pass-through” arrangement;
or
- c. the Group has transferred its right to receive cash flows from the asset and either (i) has transferred substantially all the risks and rewards of the asset, or (ii) has neither transferred nor retained the risks and rewards of the asset but has transferred the control of the asset.

Where the Group has transferred its right to receive cash flows from an asset or has entered into a “pass-through” arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial liability

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amount and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the assets or liability, assuming that market participants act in their economic best interest.

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable in the market, either directly or indirectly; and
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

Financial instruments

The fair values for financial instruments traded in active markets at the reporting date are based on their quoted market prices (any price between the bid and ask spread), without any deduction for transaction costs. When current market prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction.

For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist, option pricing models, and other relevant valuation models. Any difference noted between the fair value and the transaction price is treated as expense or income, unless it qualifies for recognition as some type of asset or liability.

Nonfinancial asset

Fair value measurement of nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's management determines the policies and procedures for both recurring fair value measurement and for non-recurring fair value measurement.

External valuers are involved for valuation of significant assets, such as investment properties. Involvement of external valuers is decided upon annually by management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. Management decides, after discussions with the Group's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Other Current Assets

Other current assets, including prepayments, represent expenses not yet incurred but already paid in advance. These are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit and loss as the benefits are consumed in operations or expired with the passage of time.

Deposits

Deposits represent deposits to a government agency as a surety bond which is measured at cost.

Investments in an Associate and a Joint Venture

Associates are entities in which the Group has significant influence and which are neither subsidiaries nor joint ventures of the Group. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries.

A joint venture is an entity, not being a subsidiary or an associate, in which the Group exercises joint control together with one or more venturers. Investments in an associate and a joint venture are accounted for under the equity method of accounting in the consolidated financial statements.

Under the equity method, the investments in associate and joint venture are carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the associate and joint venture, less dividends declared and impairment in value. If the Group's share of losses of an associate and joint venture equals or exceeds its interest in the associate, the Group discontinues recognizing its share of further losses. The interest in an associate and a joint venture is the carrying amount of the investment in the associate and joint venture under the equity method together with any long-term interests that, in substance, form part of the investor's net investment in the associate and joint venture. After application of the equity method, the Group determines whether it is necessary to recognize any impairment loss with respect to the Group's net investments in the associate and joint venture. The consolidated statement of comprehensive income reflects the Group's share in the results of operations of its associate and joint venture. This is included in the "Equity in net earnings (losses) of an associate and a joint venture" account in the consolidated statement of comprehensive income. After the Group's interest is reduced to zero, additional losses are provided to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate and joint venture.

When there has been a change recognized directly in the equity of the associate and joint venture, the Group recognizes its share of any change and discloses this, when applicable, in the consolidated statement of changes in equity.

The reporting dates of the associate, joint venture and the Group are identical and the accounting policies of the associate and joint venture conform to those used by the Group for like transactions and events in similar circumstances.

Unrealized gains arising from intercompany transactions with its associate and joint venture are eliminated to the extent of the Group's interest in the associate and joint venture. Unrealized losses are eliminated similarly but only to the extent that there is no evidence of impairment of the asset transferred.

Upon loss of significant influence over the associate, the Group measures and recognizes any retaining investment at fair value and will subsequently be measured using the policy on financial assets. Any difference between the carrying amount of the associate and joint venture upon loss of significant influence and the fair value of the remaining investment and proceeds from disposal is recognized in profit or loss.

Investment Property

Property held for long-term rental and/or capital appreciation are classified as investment property. Investment property is measured initially at cost, including transaction costs. Subsequent to initial recognition, investment property is stated at cost, less any accumulated depreciation and amortization and any accumulated impairment in value.

Investment property is derecognized when either it has been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from their disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the year of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by the end of owner-occupation, commencement of an operating lease to another party or by the end of construction or development.

Depreciation of investment property is computed using the straight-line method over the estimated useful life of 35 years.

The useful life and depreciation method are reviewed periodically to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from its investment property.

Property and Equipment

Property and equipment, except land, are stated at cost less accumulated depreciation and any accumulated impairment in value. Such cost includes the cost of replacing part of such property and equipment when such cost is incurred if the recognition criteria are met. Land is carried at cost less any impairment in value.

Depreciation is computed using the straight-line method over the following estimated useful lives:

| | Years |
|------------------------------------|---------|
| Condominium units and improvements | 35 |
| Development costs | 5 to 15 |
| Transportation and heavy equipment | 5 to 10 |
| Office furniture and fixtures | 2 to 5 |

The useful lives and depreciation method are reviewed periodically to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable.

When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and any impairment in value, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations.

Impairment of Nonfinancial Asset

The Group assesses at each reporting date whether there is an indication that a nonfinancial asset may be impaired. If any such indication exists, or when annual impairment testing for a nonfinancial asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. Impairment losses are recognized in profit or loss in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Investments in an associate and a joint venture

After application of the equity method, the Group determines whether it is necessary to recognize any additional impairment loss with respect to the Group's net investment in the investee companies. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate or joint venture is impaired. If this is the case, the Group calculates the amount of impairment as being the difference between the fair value less cost to sell and the carrying value of the investee company and recognizes the difference in profit or loss.

Equity

Capital stock

Capital stock is measured at par value for all shares issued and outstanding. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Retained earnings

Retained earnings represent the cumulative balance of net income or loss of the Group, net of any dividend declaration. Unappropriated retained earnings represent that portion which is free and can be declared as dividends to stockholders, after adjustments for any unrealized items, which are considered not available for dividend declaration. Appropriated retained earnings represent that portion which has been restricted and therefore is not available for any dividend declaration.

Equity reserve

Equity reserve pertains to the effect of reverse acquisitions (see Note 1).

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Regardless of when the payment is being made, revenue is measured at fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty.

Service income

Service income is recognized when the related services are rendered.

Rental income

The Group leases out office spaces and transportation and heavy equipment under cancellable operating leases. Rental income arising from investment property is recognized on a straight line basis while rental income on transportation and heavy equipment which are considered as variable lease payments are recognized based on the terms of the operating lease.

Interest income

Interest income is recognized as the interest accrues, taking into account the effective yield on the underlying asset.

Costs and Expenses

Cost and expenses, are decreases in economic benefits during the accounting period in the form of outflows or decrease of assets or incurrence of liabilities that result in decrease in Group's equity, other than those relating to distributions to stockholders.

Cost of services

Cost of services include costs relating directly to a specific contract, costs that are attributable to a contract activity in general and can be allocated to the contract and other costs that can be charged to the customer under the contract. These are recognized when incurred.

General and administrative expenses

General and administrative are recognized in profit or loss in the period these are incurred.

Leases

The determination of whether an arrangement is, or contains a lease, is based on the substance of the arrangement at inception date whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset. A restatement is made after the inception of the lease only if one of the following applies:

- (a) there is a change in the contractual terms, other than a renewal or extension of the arrangement;
- (b) a renewal option is exercised or extension granted, unless the term of the renewal and extension was initially included in the lease term;
- (c) there is a change in the determination of whether the fulfilment is dependent on a specified asset; or
- (d) there is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date of the change in circumstances that gave rise to the reassessment for scenarios (a), (c) and (d) above and at the date of renewal or extension period for scenario (b).

Finance Lease Commitments - Group as a Lessee

The Group has entered into commercial lease of transportation equipment. The Group has determined that it acquires all the significant risks and rewards of ownership on these equipment and therefore accounts for these under finance lease.

Group as a lessor

Lease of assets under which the Group effectively retains all the risks and rewards of ownership is classified as operating lease. Variable lease payments under an operating lease are recognized as an income in profit or loss based on the terms of the operating lease agreement.

Retirement Cost

The Group, through BEST, has a funded, non-contributory retirement plan, administered by a trustee, covering its regular employees. Retirement cost is actuarially determined using the projected unit credit method. This method reflects service rendered by employees to the date of valuation and incorporates assumptions concerning employees' projected salaries.

Defined retirement costs comprise the following:

- (a) Service costs
- (b) Net interest on the net defined benefit liability or asset
- (c) Remeasurements of net defined benefit liability or asset

Service costs which include current service cost, past service cost and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as interest expense or interest income in profit or loss.

Remeasurements comprising actuarial gains and losses and return on plan assets (excluding net interest on defined benefit liability) are recognized immediately in OCI under "Actuarial gains/losses on defined benefit plan" in the period in which they arise. Remeasurements are not recycled to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plans or reductions in future contributions to the plan.

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Short-term Benefits

The Group recognizes a liability net of amounts already paid and an expense for services rendered by employees during the accounting period. Short-term benefits given by the Group to its employees include compensation, social security contributions, short-term compensated absences, bonuses and other non-monetary benefits.

Income tax

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as of the reporting date.

Deferred tax

Deferred income tax is provided, using the balance sheet liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences with certain exceptions. Deferred income tax assets are recognized for all deductible temporary differences and net operating loss carry over (NOLCO) to the extent that it is probable that future taxable income will be available against which the deductible temporary differences and NOLCO can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred tax assets are reassessed as of the reporting period and are recognized to the extent that it has become probable that future taxable income will allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that is applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted as at the reporting period.

Deferred tax relating to items recognized outside profit or loss is recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Value-added tax (VAT)

Revenue, expenses and assets are recognized net of the amount of sales tax except:

- where the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case the tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and,
- receivables and payables that are stated with the amount of tax included.

The net amount of tax recoverable from the tax authority is included as part of “Other current assets” in the consolidated statement of financial position.

Other Comprehensive Income

Other comprehensive income comprises items of income and expense (including items previously presented under the statement of changes in equity) that are not recognized in profit or loss for the year in accordance with PFRS. Other comprehensive income includes actuarial gains and losses on defined benefit obligation. Other comprehensive income that will be reclassified subsequently to profit or loss is presented separately from other comprehensive income that will not be reclassified to profit or loss in the future.

Operating Segment

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Disclosure of segment information is presented in Note 23.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the profit or loss, net of any reimbursement.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed when an inflow of economic benefits is probable.

Basic/Diluted Earnings Per Share (EPS)

EPS is computed by dividing net income for the year attributable to common shareholders by the weighted average number of common shares issued and outstanding during the year, with retroactive adjustments for any stock dividends declared.

Events After the Reporting Date

Post year-end events that provide additional information about the Group's financial position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the consolidated financial statements when material.

3. Significant Accounting Judgments and Estimates

The preparation of the consolidated financial statements in compliance with PFRS requires the Group to make judgments and estimates that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the consolidated financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements. Among the significant accounting judgments made by the Group are as follows:

Assessment of control

The Parent Company classifies its investee companies as subsidiary if the Parent Company achieves control over the companies. Control is presumed to exist if the Parent Company has the following characteristics:

- power over the investee;
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect the amount of the investor's returns

Control is achieved when the Parent Company is exposed, or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. In the event the Parent Company loses this power, the Parent Company will have to change the classification of its investment in investee companies.

BEST is the combining entity whose owners as a group received the largest portion of the voting rights in the Group, hence, is regarded as the accounting acquirer.

As of December 31, 2015 and 2014, BEST holds 60% interest in Ecoedge Resources Corporation (ERC). Joint control exists as decisions about the relevant activities of ERC require the unanimous consent of BEST and Lafarge Industrial Ecology International, S.A (LIEI), which is supported by the contractual agreement of the parties to the following:

- The affirmative vote of shareholders representing at least 75% of the issued share capital shall be required to pass a shareholders resolution;
- ERC shall be governed by the BOD that will comprise 5 directors (3 nominated by BEST and 2 nominated by LIEI), whereby 4 directors shall be required to pass a board resolution.

Assessment of significant influence

The Group classifies its investee companies as an associate if the Group has significant influence in the investee company. Significant influence is presumed to exist if the Group has a holding of 20% or more of the voting power of the investee. Holding of less than 20% of the voting power is presumed not to give rise to significant influence, unless it can be clearly demonstrated that there is in fact significant influence.

As of December 31, 2015 and 2014, the Group holds 16% interest in Metro Clark Waste Management Corporation (MCWM). The Group exercise significant influence in MCWM due to the presence of BEST's President in the Board of MCWM. Hence, the President of BEST, effectively has a participation in the policy-making processes of MCWM.

Distinction between investment properties and owner occupied properties

The Group determines whether a property qualifies as investment property or owner-occupied property. In making its judgment, the Group considers whether the property generated cash flows largely independently of the other assets held by an entity or for capital appreciation. Owner-occupied properties generate cash flows that are attributable not only to the property but also to the other assets used in the supply of services or for administrative purposes.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the supply of services or for administrative purposes. If these portions cannot be sold separately as of the reporting date, the property is accounted for as investment property only if an insignificant portion is held for use in the supply of services or for administrative purposes. Judgment is applied in determining whether ancillary services are so significant that a property does not qualify as investment property. The Group considers each property separately in making its judgment.

The disclosures on the Group's investment property and property and equipment are presented in Notes 10 and 11, respectively.

Determining Finance Lease Commitments - Group as a Lessee

The Group has entered into commercial lease of transportation equipment. The Group has determined that it acquires all the significant risks and rewards of ownership on this equipment since the ownership of the asset will be transferred to the Group at the end of the lease term. Therefore, the Group accounts for these under finance lease.

Operating lease - Group as lessor

The Group has entered into various commercial property leases on its investment property and transportation and heavy equipment. The Group has determined that it retains all the significant risks and rewards of ownership of the property as the Group considered, among others, the length of the lease term as compared with the estimated life of the assets. The Group's operating lease contracts are accounted for as cancellable operating leases. In determining whether a lease contract is cancellable or not, the Group considers, among others, the significance of the penalty, including economic consequence to the lessee.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty as of the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial years, are discussed below:

Allowance for impairment loss on receivable

The Group maintains allowance for impairment loss on its receivables at a level adequate to provide for any potential uncollectible receivables. The level of this allowance is regularly evaluated by the Group. The Group assesses whether objective impairment exists for the receivable by considering the financial condition and credit history of the counterparty. Moreover, the Group also considers its historical loss experience in assessing collective impairment of receivables. The Group reviews the status of the receivables and identifies amounts that are to be provided with allowance on a continuous basis. The amount and timing of recorded expenses for any period would differ if the Group made different judgments or utilized different estimates. An increase in the Group's allowance for impairment loss on receivables would increase the Group's recorded expenses and decrease current assets. As of December 31, 2015 and 2014, the allowance for impairment losses on receivable amounted to ₱4.39 million and ₱2.73 million, respectively. Receivables amounted to ₱593.57 million and ₱441.79 million as of December 31, 2015 and 2014, respectively (see Note 5).

Estimated useful lives of investment property and property and equipment

The useful life of each of the Group's investment property and property and equipment is estimated based on the period over which the asset is expected to be available for use. Such estimation is based on a collective assessment of industry practice, internal technical evaluation and experience with similar assets. The estimated useful life of each item of investment property and property and equipment is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset. It is possible, however, that future results of operations could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above. A reduction in the estimated useful life of any investment property and property and equipment would increase the recorded general and administrative expenses and decrease noncurrent assets. Based on the management estimates, there is no need to update the estimated useful lives of investment property and property and equipment in 2015 and 2014. As of December 31, 2015 and 2014, the carrying value of the Group's investment properties amounted to ₱35.20 million and ₱36.32 million, respectively (see Note 10). As of December 31, 2015 and 2014, the carrying value of the Group's property and equipment amounted to ₱256.81 million and ₱276.50 million, respectively (see Note 11).

Impairment of non-financial assets

The Group assesses impairment on non-financial assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. This includes considering certain indications of impairment such as significant changes in asset usage, significant decline in assets' market value or physical damage of an asset, significant underperformance relative to expected historical or projected future operating results and significant negative industry or economic trends. The Group recognizes an impairment loss if such indications are present and whenever the carrying amount of an asset exceeds its recoverable amount.

This requires the Group to make estimates and assumptions that can materially affect the consolidated financial statements. Future events could cause the Group to conclude that these assets are impaired. Any resulting additional impairment loss could have a material adverse impact on the Group's financial condition and results of operations.

As of December 31, 2015 and 2014, the Group did not recognize any impairment loss on its nonfinancial assets. As of December 31, 2015 and 2014, the carrying values of investments in an associate and a joint venture amounted to ₱89.27 million and ₱91.20 million, investment property amounted to ₱35.20 million and ₱36.32 million, and property and equipment amounted to ₱256.81 million and ₱276.50 million, respectively (see Notes 8, 10 and 11).

Retirement benefits

The cost of defined benefit pension plans and the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for the specific country and is modified accordingly with estimates of mortality improvements. Future salary increases and

pension increases are based on expected future inflation rates for the specific country. Net pension liability amounted to ₱0.71 million and ₱0.42 million as of December 31, 2015 and 2014, respectively. Further details about the assumptions used are provided in Note 18.

Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded in the consolidated statement of financial position or disclosed in the notes to the consolidated financial statements cannot be derived from active markets, they are determined using internal valuation techniques using generally accepted market valuation models such as discounted cash flow technique. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimates are used in establishing fair values. Further details on fair value of financial instruments are provided on Note 22.

Recoverability of deferred tax assets

The Group's assessment on the recognition of deferred tax assets on non-deductible temporary differences and carry forward benefit of NOLCO is based on the forecasted taxable income of the following reporting periods. This forecast is based on the Group's past results and future expectations on revenues and expenses.

In 2014, the Group recognized previously unrecognized deferred tax assets amounting to ₱0.05 million since the management believes that sufficient future taxable income will be available against which the deductible temporary differences can be utilized.

Deferred tax assets recognized amounted to ₱1.23 million and ₱0.64 million as of December 31, 2015 and 2014, respectively. The amount of unrecognized deferred tax assets amounted to ₱4.27 million and ₱3.98 million as of December 31, 2015 and 2014, respectively (see Note 19).

4. Cash

This account consists of:

| | 2015 | 2014 |
|---------------|--------------------|-------------|
| Cash on hand | ₱65,000 | ₱65,000 |
| Cash in banks | 81,411,440 | 21,256,523 |
| | ₱81,476,440 | ₱21,321,523 |

Cash in banks earns interest at the prevailing bank deposit rates.

Interest earned on cash amounted to ₱0.03 million, ₱0.07 million and ₱0.18 million in 2015, 2014 and 2013, respectively.

5. Receivables

This account consists of:

| | 2015 | 2014 |
|---|---------------------|---------------------|
| Trade receivables | | |
| Related parties (Note 15) | ₱529,693,744 | ₱384,426,849 |
| Local government units (LGUs) | 20,705,005 | 19,588,005 |
| Private entities | 10,378,788 | 7,387,673 |

| | 593,570,193 | 441,789,188 |
| Less noncurrent portion of trade receivables from related parties | - | 37,584,527 |
| | ₱593,570,193 | ₱404,204,661 |

Trade receivables pertain to receivables from services rendered and rental of equipment earned by BEST in the ordinary course of its business operations. Trade receivables are noninterest-bearing and collectible within one year.

In 2015, portion of the collections from IPMESI were applied against outstanding noncurrent receivables amounting to ₱37.58 million.

The rollforward analysis of the Group's allowance for impairment losses follows:

| | 2015 | 2014 |
|--------------------------------------|-------------------|------------|
| Balance at the beginning of the year | ₱2,733,892 | ₱1,066,172 |
| Provision for the year (Note 17) | 1,660,777 | 1,667,720 |
| Balance at end of year | ₱4,394,669 | ₱2,733,892 |

Allowance for impairment losses as of December 31, 2015 and 2014 pertains to long-outstanding trade and other receivables of the Group which were specifically identified as impaired.

6. Short-Term Deposit

As of December 31, 2013, the Group has short-term deposit with a local bank amounting to ₱100,000,000 in relation to the back-to-back loan credit accommodation obtained by BEST from the local bank on December 28, 2012. This deposit, including the accrued interest, is restricted and can be withdrawn, transferred or encumbered only with the written consent of the local, unless the loans or any part thereof, including interest and other charges thereon, shall have been fully paid or discharged.

On March 21, 2014, BEST paid the loan payable to the local bank using the short-term deposit (see Note 13). Interest income on the short-term deposit amounted to ₱0.85 million and ₱1.52 million in 2014 and 2013, respectively.

7. Other Current Assets

This account consists of:

| | 2015 | 2014 |
|--------------------------------------|--------------------|-------------|
| Input VAT | ₱17,692,929 | ₱18,367,343 |
| Prepayments | 3,581,471 | 1,989,633 |
| Creditable withholding taxes | 1,176,609 | 1,137,430 |
| Miscellaneous deposits | 15,669 | 15,669 |
| | 22,466,678 | 21,510,075 |
| Less allowance for impairment losses | 4,764,198 | 4,581,137 |
| | ₱17,702,480 | ₱16,928,938 |

The movement in allowance for impairment losses follows:

| | 2015 | 2014 |
|----------------------------------|-------------------|------------|
| Balance at beginning of year | ₱4,581,137 | ₱4,364,957 |
| Provision for the year (Note 17) | 183,061 | 216,180 |
| Balance at end of year | ₱4,764,198 | ₱4,581,137 |

The Parent Company provided allowance for impairment on its creditable withholding taxes and input VAT aggregating to ₱4.76 million and ₱4.58 million as of December 31, 2015 and 2014, respectively, due to low probability that these assets may be utilized in the future.

8. Investments in an Associate and a Joint Venture - at equity

The details of the Group's investments in an associate and a joint venture accounted for under the equity method as of December 31, 2015 and 2014 follow:

| | Associate | | Joint Venture | | Total | |

ERC

On November 6, 2013, BEST entered into a joint venture agreement with Lafarge Industrial Ecology International, S.A. (LIEI) to organize and establish ERC to engage in the development, utilization of renewable energy sources for non-power applications, and in particular, the production, processing, packaging, distribution and/or sale of fuel generated from municipal solid waste, such as refuse derived fuel, and pursuant thereto, to establish renewable energy systems or facilities, and to engage in any activity pursuant or incidental thereto. ERC was incorporated on November 27, 2013 and its registered address is Unit 103, GF Prestige Tower Condominium, F. Ortigas Jr. Road, Ortigas Center, Pasig City.

As of December 31, 2015 and 2014, BEST holds 60% interest in ERC. Joint control exists as decisions about the relevant activities of ERC require the unanimous consent of both BEST and LIEI, which is supported by the contractual agreement of the parties to the following:

- The affirmative vote of shareholders representing at least 75% of the issued share capital shall be required to pass a shareholders resolution;
- ERC shall be governed by the BOD that will comprise of 5 directors (3 nominated by BEST and 2 nominated by LIEI), whereby 4 directors shall be required to pass a board resolution.

Significant financial information of the joint venture follows:

| | 2015 | 2014 |
|---|---------------------|---------------------|
| Current assets, including cash and cash equivalents of ₱3.72 million (2014: ₱4.33 million) | ₱17,015,363 | ₱11,133,596 |

| Other comprehensive income | - | - |
| Total comprehensive loss | (8,304,684) | (8,296,021) |

There are no significant restrictions on the ability of the associate and the joint venture to transfer funds to the Group in the form of cash dividends or to repay loans or advances made by the Group.

9. Deposits

As of December 31, 2015 and 2014, BEST has deposits to GSIS as surety bond amounting to ₱3.29 million and ₱3.16 million, respectively. These deposits were made in favor of BEST's contracting parties, which are government offices, so that the completion of the project is guaranteed. If the Group fails to execute the services according to the specifications laid out in the respective contracts, the government offices will receive guaranteed compensation for any monetary loss up to the amount of the performance bond.

10. Investment Property

BEST owns two condominium units located in Pasig City. One unit is being used by BEST while the other unit is being leased out to related parties. The allocated cost and accumulated depreciation of the transferred condominium units are allocated based on the area (in square meters) of the space leased out (see Notes 15 and 21).

Cost and accumulated depreciation of the Group's investment property follow:

| | 2015 | 2014 |
|------------------------------|--------------------|-------------|
| Cost: | ₱38,535,329 | ₱38,535,329 |
| Accumulated depreciation: | | |
| Balance at beginning of year | 2,218,453 | 1,101,010 |
| Depreciation (Note 16) | 1,117,443 | 1,117,443 |
| | 3,335,896 | 2,218,453 |
| Net book value | ₱35,199,433 | ₱36,316,876 |

No rental income was recognized in 2015 since BEST's lease agreement with related parties was terminated in December 2014. Rent income earned from investment property amounted to ₱1.00 million, and ₱1.50 million in 2014 and 2013, respectively.

The investment property has an aggregate fair value of ₱37.49 million based on an appraisal made by an independent appraiser on December 4, 2015. The sales comparison approach was used in determining the fair value which considers the sales of similar or substitute properties and related market data, and establishes a value estimate by processes involving comparison. The fair value of the investment property is categorized as Level 3 which used adjusted inputs for valuation that are unobservable as of the date of valuation. The inputs used were asking prices of similar listings and offerings. Significant increases or decreases in asking price would result in higher or lower fair value of the asset.

- a. BEST provides composting of waste materials services to IPMCDC and charges tipping fees, and composting and waste processing fees based on the cubic meters of waste processed for the period. In 2015, 2014 and 2013, BEST charged IPMCDC for transportation and heavy equipment rental fees. In July 2015, BEST entered into a consultancy agreement with IPMCDC for the monitoring of efficiency of the latter's operation and compliance with rules and regulations on IPMCDC's contract with several local municipalities. The income payment is based on a fixed amount specified in the consultancy agreement.

- b. BEST has an existing contract with IPMESI for the operation and maintenance of an Integrated Solid Waste Management Facility for a fixed monthly fee of ₱15.58 million. In 2015, 2014 and 2013, BEST charged IPMESI for the rental of transportation and heavy equipment.
- c. Starting January 2013, BEST leases part of its office space to IPMRDC for a monthly rental fee of ₱0.12 million. No rental income was recognized in 2015 since BEST's lease agreement with related parties was terminated in December 2014 (see Note 21).
- d. BEST provided advances to ERC in line with its start-up operations. The advances are non-interest-bearing and payable on demand.
- e. IPMCDC and IPMRDC charges BEST for the rental of equipment, subcontracted services, salaries and wages, fuel and oil and repairs and maintenance expenses incurred in line with the operations of BEST.
- f. Due to IPMCDC and IPMESI are for various reimbursable expenses advanced by the related parties on behalf of BEST. These advances are non-interest bearing and are due on demand.
- g. On December 28, 2012, BEST obtained advances from IPMCDC amounting to ₱100.00 million for working capital requirements. These advances are non-interest bearing and are due on demand. In 2014, BEST fully paid the advances from IPMCDC.
- h. The Parent Company entered into an agreement with GNCA, an entity controlled by one of the Parent Company's director, for the sharing of common costs incurred on the leased office space of the Parent Company. The agreement provides that Parent Company shall pay fixed monthly utility charges of ₱15,000 in 2015, 2014 and 2013, in lieu of its proportionate share in monthly rentals on the leased premises.
- i. In 2013, the BOD of the Parent Company approved the grant of per diem to members of the BOD for every attendance in the regular meetings of the BOD. Total per diem paid to the directors amounted to ₱0.32 million, ₱0.24 million, and ₱0.22 million in 2015, 2014 and 2013, respectively (see Note 17).
- j. In 2014, the Group granted one-year loans to ERC amounting to ₱19.00 million with 3.8640% interest rate which will be due on November 1, 2015 and ₱12.00 million with 3.718% interest which will be due on July 31, 2015. These loans remained outstanding at year end and accrued interest receivable amounted to ₱1.49 million and ₱0.31 million as of December 31, 2015 and 2014, respectively.

Transactions with related parties are based on terms agreed to by the parties. Outstanding balances as of reporting date are unsecured, non-interest bearing and settled in cash. There have been no guarantees provided or received for any related party receivables or payables. Based on management's assessment, no provision for impairment for receivables for related parties is necessary due to regular settlements made by the related parties in 2015 and 2014. This assessment is done on a regular basis.

18. Pension Plan

The Group has a non-contributory defined benefit pension plan that covers all regular full-time employees. Under its defined benefit plan, the Group provides a retirement benefit equal to 22.5 days' pay for every year of credited service in accordance with the Retirement Pay Law (RA 7641). The benefit is paid lump sum upon retirement or separation in accordance with the terms of the plan. The law does not require minimum funding of the plan.

The Group's retirement fund is administered by Metropolitan Bank and Trust Company (the Trustee) under the supervision of the Board of Trustees (BOT) of the plan which delegates the implementation of the investment policy to the Trustee. The fund is subject to the investment objectives and guidelines established by the Trustee and rules and regulations issued by Bangko Sentral ng Pilipinas covering assets under trust and fiduciary agreements. The Trustee is responsible for the investment strategy of the plan.

The latest actuarial valuation date of the Group's retirement plan is as of December 31, 2015.

The Group's plan assets are invested mainly in cash and cash equivalents. The carrying value of the Group's plan assets approximates the fair value due to its short-term nature. The plan assets do not have any concentration risk. The actual return on plan assets amounted to ₱0.05 million and ₱0.03 million in 2015 and 2014, respectively.

In 2013, the Group contributed ₱0.34 million to the defined benefit pension plan. The Group did not make any contribution in 2015 and 2014 to the defined benefit pension plan. The Group does not expect any contribution to the defined benefit pension plan in 2016.

The present value of the pension obligation is determined using an actuarial valuation, which involves making various assumptions. The principal assumptions used in determining pension benefits are as follows:

| | 2015 | 2014 |
|----------------------|-------|-------|
| Discount rate | 5.31% | 4.95% |
| Salary increase rate | 2.00% | 2.00% |

The following sensitivity analysis has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as of the end of the reporting period, assuming all other assumptions were held constant:

| | Change in variable | Increase (decrease) in present value of defined benefit obligation | |
|----------------------|--------------------|--|-----------|
| | | 2015 | 2014 |
| Discount rate | +100 bps | (₱89,413) | (₱71,355) |
| | -100 bps | 103,686 | 83,212 |
| Salary increase rate | +100 bps | 96,471 | 77,907 |
| | -100 bps | (84,909) | (68,283) |

The Group expects to pay retirement benefits in 2016 amounting ₱0.11 million and in 2019 amounting to ₱0.25 million. The weighted average duration of the defined benefit obligation is 10.9 years and 11.7 years as of December 31, 2015 and 2014, respectively.

19. Income Tax

The provision for income tax recognized in profit or loss consists of:

| | 2015 | 2014 | 2013 |
|----------|--------------------|-------------|-------------|
| Current | ₱38,007,435 | ₱33,571,091 | ₱31,613,780 |
| Final | 66,020 | 185,062 | 340,965 |
| Deferred | (586,548) | (640,167) | - |
| | ₱37,486,907 | ₱33,115,986 | ₱31,954,745 |

The provision for current income tax represents regular corporate income tax (RCIT) of BEST in 2015, 2014 and 2013.

The components of the Group's unrecognized deferred tax assets follow:

| | 2015 | 2014 |
|---------------------------------|--------------------|-------------|
| NOLCO | ₱13,157,555 | ₱12,199,823 |
| Allowance for impairment losses | 1,066,172 | 1,066,172 |
| | 14,223,727 | 13,265,995 |
| Tax rate | 30% | 30% |
| | ₱4,267,118 | ₱3,979,799 |

The Group's deferred tax assets were not recognized in the books because management believes that it is not probable that taxable profits will be available in the future against which these can be utilized. The Group will recognize a previously unrecognized deferred tax asset to the extent that it becomes probable that future taxable income will allow the deferred tax asset to be recovered.

In 2014, the Group recognized the previously unrecognized deferred tax assets amounting to ₱0.05 million since management believes that future taxable income will allow the deferred tax assets to be utilized.

The components of the Groups recognized deferred tax assets follow:

| | 2015 | 2014 |
|--|-------------------|----------|
| Presented in profit or loss | | |
| <i>Deferred tax assets</i> | | |
| Allowance for impairment losses | ₱998,549 | ₱500,316 |
| Net pension liability | 228,166 | 139,851 |
| | 1,226,715 | 640,167 |
| Presented in other comprehensive income | | |
| <i>Deferred tax liability</i> | | |
| Net pension liability | (16,330) | (14,908) |
| Net deferred tax assets | ₱1,210,385 | ₱625,259 |

The reconciliation between the statutory income tax and the effective income tax follows:

| | 2015 | 2014 | 2013 |
|--|--------------------|-------------|-------------|
| At statutory tax rate | ₱34,559,878 | ₱28,303,127 | ₱22,141,915 |
| Add (deduct) tax effects of: | | | |
| Nondeductible expense | 1,942,473 | 3,334,254 | 7,749,870 |
| Equity in net losses of an associate and a joint venture | 217,881 | 552,600 | 67,092 |
| Interest income subjected to final tax | (33,010) | (92,531) | (170,482) |
| Change in unrecognized deferred tax assets | 799,685 | 1,018,536 | 2,166,350 |
| Effective income tax | ₱37,486,907 | ₱33,115,986 | ₱31,954,745 |

The Parent Company's NOLCO as of December 31, 2015 consists of:

| Year Incurred | Amount | Applied | Expired | Balance | Expiry Date |
|---------------|--------------------|-----------|-------------------|--------------------|-------------|
| 2015 | ₱2,665,618 | ₱- | ₱- | ₱2,665,618 | 2018 |
| 2014 | 3,354,805 | - | - | 3,354,805 | 2017 |
| 2013 | 7,137,132 | - | - | 7,137,132 | 2016 |
| 2012 | 1,707,886 | - | 1,707,886 | - | 2015 |
| | ₱14,865,441 | ₱- | ₱1,707,886 | ₱13,157,555 | |

20. Basic/Diluted Earnings per Share

Basic/diluted earnings per share was computed as follows:

| | 2015 | 2014 | 2013 |
|---|--------------------|-------------|-------------|
| Net income attributable to equity holders of the parent (a) | ₱57,538,383 | ₱45,005,528 | ₱23,295,787 |
| Weighted average number of outstanding common share (b) | 690,000,000 | 690,000,000 | 469,452,055 |
| Basic earnings per share (a/b) | ₱0.08 | ₱0.07 | ₱0.05 |

The basic EPS is equal to the diluted EPS since the Group has no potential shares that will have a dilutive effect on EPS.

21. Commitments

As of December 31, 2015 and 2014, the Group has the following contractual commitments:

- The Group has entered into a contractual agreement with IPMCDC, the ultimate parent, to undertake the following:
 - a. Composting of waste materials from IPMCDC's sanitary landfill which is being renewed every year. In 2015, the Group entered into a new contract with IPMCDC for the composting of waste from Pasig City amounting to ₱0.56 million per month inclusive of taxes. The contract is renewable every year (Note 15).

- b. Consultancy and field services in IPMCDC's Materials Recovery Facility (MRF) which is being renewed every year. In July 2015, the Group entered into new consultancy services contracts with IPMCDC for the monitoring of efficiency of the latter's operation and compliance with rules and regulations on IPMCDC's contract with several local cities. In 2015, the Group recognized income amounting to ₱13.29 million arising from these new consultancy services contracts (Note 15).
- The Group entered into a contractual commitment with IPMESI, a stockholder, to undertake the Operation and Maintenance of Integrated Solid Waste Management Facility for a fixed monthly fee of ₱15.58 million. This agreement was renewed on March 28, 2014 for the period covering January 1, 2014 to December 31, 2014. The agreement was renewed for another year in 2015 (Note 15).
 - The Group has entered into a contractual commitment to provide garbage hauling and disposal services for the Municipality of Taytay, Rizal for a consideration of ₱16.00 million at ₱349 per cubic meter for a total of 45,845 cubic meters of waste hauled to the landfill facility. The agreement ended in June 2013 when the total computed volume of waste had already been completely hauled to the landfill facility. Outstanding receivable from the municipality amounted to ₱14.11 million as of December 31, 2015 and 2014.
 - The Group has entered into contractual commitments with various municipalities of Rizal for the tipping and disposal of residual wastes. Each agreement is effective for one year, renewable every year under the same terms and conditions unless, otherwise, mutually agreed upon by the parties. As of December 31, 2015 and 2014, the amount of income recognized by the Group and outstanding balance per municipality follow:

| Municipality | Rate per ton | Income (in millions) | | Outstanding Balance (in millions) | |
|--------------|--------------|-------------------------|-------|--------------------------------------|-------|
| | | 2015 | 2014 | 2015 | 2014 |
| Baras | ₱600 | ₱1.22 | ₱1.30 | ₱2.12 | ₱2.27 |
| Cardona | 600 | 0.41 | 0.03 | 0.29 | 0.12 |
| Tanay | 600 | 1.09 | 1.17 | 1.18 | 0.34 |
| Teresa | 500 | 1.84 | 1.75 | 1.56 | 1.55 |
| Pililla | 600 | 0.04 | — | 0.04 | — |
| Jalajala | 600 | 0.23 | — | 0.20 | — |
| Morong | 300 | — | — | 1.20 | 1.20 |

On March 2, 2015 and March 16, 2015, the Group entered into contractual commitments with the municipality of Pililla and Jalajala, respectively, for the tipping and disposal of residual wastes.

- The Group has entered into a contractual commitment with Lafarge Republic, Inc. (LRI) to provide trucking and hauling services to transport Refuse-Derived Fuel (RDF) upon request of LRI. The contract is effective from July 1, 2013 to June 30, 2014, renewable upon mutual agreement of the parties. In 2015 and 2014, the agreement was renewed under the same terms. Outstanding receivable from LRI amounted to ₱3.70 million and ₱3.00 million as of December 31, 2015 and 2014, respectively. The Group recognized income amounting to ₱2.53 million and ₱3.74 million from the services rendered in 2015 and 2014, respectively.

- In January 2014, the Group has entered into an operating lease agreement with IPMRDC. Rental income amounted to ₱1.00 million in 2014. No rental income was recognized in 2015 since BEST's lease agreement with related parties was terminated in December 2014 (Note 15).

22. Financial Risk Management Objectives and Policies

The Group's principal financial assets and liabilities comprise of cash and cash equivalents, receivables, deposits, due to/from related parties and loans payable. The main purpose of these financial instruments is to raise finances for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations.

The Group has established a risk management function with clear terms of reference and with the responsibility for developing policies on credit risk and liquidity risk. It also supports the effective implementation of such policies. The policies define the Group's identification of risk and its interpretation, limit structure to ensure the appropriate quality and diversification of assets to the corporate goals and specify reporting requirements.

The main risk arising from the Group's consolidated financial statements are credit risk and liquidity risk. The BOD reviews and approves the policies for managing each of these risks which are summarized below:

Credit risk

Credit risk arises when the counterparty to a financial asset of the Group is unable to fulfill its obligation in time the obligation becomes due. Credit risk arises from the Group's financial assets, which comprise cash and cash equivalents, receivables, due from a joint venture and deposits. Credit risk pertains to the risk that a party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss.

The table below shows the maximum exposure to credit risk of the financial assets of the Group:

| | 2015 | 2014 |
|--------------------------|---------------------|--------------|
| Loans and receivables: | | |
| Cash* | ₱81,411,440 | ₱21,256,523 |

*excluding cash on hand

High grade assets are considered as having very low risk and can easily be converted to cash. These assets are considered for counterparties that possess strong to very strong capacity to meet their obligations.

The Group trades with only recognized, creditworthy third parties; thus, there is no requirement for collateral. Customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to debts is not significant.

Liquidity risk

Liquidity risk is the risk that the entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Prudent liquidity risk management implies sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying business, the Group aims to maintain flexibility in funding by keeping committed credit lines available.

The Group also ensures that there are sufficient, available and approved working capital lines that it can draw from anytime. It maintains an adequate cash and cash equivalents in the event of unforeseen interruption of its cash collections. The Group also maintains accounts with several relationship banks to avoid significant concentration of cash with one institution.

The table below summarizes the maturity profile of the Group's nonderivative financial assets and liabilities as of December 31, 2015 and 2014 based on contractual undiscounted payments:

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. The Group considers total equity amounting to ₱873.09 million and ₱795.38 million as of December 31, 2015 and 2014, respectively, as capital.

Fair Value Information

Due to the short-term nature of the Group's financial instruments, their fair values approximate their carrying amounts as of December 31, 2015 and 2014 except for noncurrent portion of trade receivables with carrying amount of ₱37.58 million and fair value of ₱36.69 million as of December 31, 2014. The fair value of this receivable was determined by discounting future cash flows using prevailing market interest rate of 2.38% to 2.43% in 2014.

Fair Value Hierarchy

As of December 31, 2015 and 2014, the Group has no financial instrument carried in the books at fair value. There were no transfers between Level 1 and Level 2 financial instruments, and no transfers into or out of Level 3 fair value instrument.

23. Segment Information

For management reporting purposes, the Group's businesses are classified into the following business segments: (1) investment holding and (2) service. Details of the Group's business segments are as follows:

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of IPM Holdings, Inc. and its subsidiary (collectively, the Group) as at December 31, 2015 and 2014 and for each of the three years in the period ended December 31, 2015, included in this Form 17-A, and have issued our report thereon dated March 30, 2016. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The schedules listed in the Index to the Consolidated Financial Statements and Supplementary Schedules are the responsibility of the Group's management. These schedules are presented for purposes of complying with Securities Regulation Code 68, As Amended (2011) and are not part of the basic financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly state, in all material respects, the information required to be set forth therein in relation to the basic consolidated financial statements taken as a whole.

Report on the Parent Company's Financial Statements

We have audited the accompanying parent company financial statements of IPM Holdings, Inc. which comprise the parent company statements of financial position as at December 31, 2015 and 2014, and the parent company statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2015, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the parent company financial statements present fairly, in all material respects, the financial position of IPM Holdings, Inc. as at December 31, 2015 and 2014, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2015 in accordance with Philippine Financial Reporting Standards.

Report on the Supplementary Information Required Under Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Revenue Regulations 15-2010 in Note 13 to the parent company financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic parent company financial statements. Such information is the responsibility of the management of IPM Holdings, Inc. The information has been subjected to the auditing procedures applied in our audit of the basic parent company financial statements. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO PARENT COMPANY FINANCIAL STATEMENTS

1. Corporate Information and Status of Operations

IPM Holdings, Inc. (IPM), formerly Minerales Industrias Corporation (the Parent Company) was incorporated and organized in the Republic of the Philippines on August 31, 1995 to engage in the business as an investment holding company.

On November 20, 2012, the BOD approved the issuance of 500,000,000 shares at par value of ₱1 per share in favor of the following companies within IPM Group: (a) IPM Construction and Development Corporation (IPMCDC), 350,000,000; (b) IPM Environmental Services, Inc. (IPMESI), 100,000,000; and (c) IPM Realty and Development Corporation (IPMRDC), 50,000,000. On the same date, the BOD authorized the acquisition of 615,000,000 shares in Basic Environmental Systems and Technologies, Inc. (BEST) at par value of ₱1 per share, which will constitute 75% of the resulting outstanding capital of BEST. Further, the Parent Company was authorized to partially pay for the 615,000,000 shares in BEST as follows: (a) ₱450,000,000 for the 600,000,000 shares that will come from the increase in authorized capital stock of BEST; and (b) ₱12,500,000 for the subscription rights to 15,000,000 shares in BEST to be acquired from the original shareholders of BEST.

On February 8, 2013, the stockholders of the Parent Company representing at least two thirds of the outstanding capital stock approved the subscription by the following within the IPM Group of companies or any of their designees/nominees to a total of 500,000,000 shares out of the ₱500,000,000 increase in the authorized capital stock of the Parent Company previously approved by the shareholders, at a total subscription price of ₱500,000,000, payable in cash: (a) IPMCDC, ₱350,000,000; (b) IPMESI, ₱100,000,000; and (c) IPMRDC, ₱50,000,000. On the same date, the stockholders approved the amendment of the primary purpose of the Parent Company to enable the Parent Company to revert to being a holding company.

On February 11, 2013 and February 12, 2013, the Parent Company received ₱50,000,000 and ₱450,000,000, respectively, as deposits for the said subscription to the proposed increase in the authorized capital stock of the Parent Company.

On March 4, 2013, the Parent Company acquired 615,000,000 shares in BEST representing 75% interest, thereby treating it as a subsidiary and paid ₱462,500,000, ₱12,500,000 of which was paid to the original shareholders of BEST as consideration to the subscription rights acquired (see Notes 6 and 10).

On June 11, 2013, the Securities and Exchange Commission (SEC) approved the Parent Company's application for increase in authorized capital stock from 240,000,000 shares to 740,000,000 shares with a par value of ₱1 per share and the amendment of the primary purpose of the Parent Company to revert back to a holding company. The deposit for future subscription of stocks by IPMCDC, IPMESI and IPMRDC was then transferred to common stocks following the approval of the increase in authorized capital.

On July 18, 2013, the BOD approved the increase in the authorized capital stock of the Parent Company from ₱740,000,000 divided into 740,000,000 shares with a par value of ₱1 per share to ₱5,000,000,000 divided into 5,000,000,000 shares with a par value of ₱1 per share. On the same date, the BOD approved the transfer of the principal address of the Parent Company from Room 322, 3rd Floor, LRI Design Plaza, 210 Nicanor Garcia Street, Barangay Sta. Cruz, Makati City to its current principal address, Unit 103, Ground Floor, Prestige Tower Condominium, F Ortigas Jr. Avenue Ortigas Center, Pasig City. These were subsequently approved by the shareholders on September 19, 2013. The SEC approved the amended articles of incorporation indicating the change of address on October 18, 2013.

On February 10, 2014, the BOD approved the payment to BEST of ₱22,875,000 representing 15% of the unpaid balance on the total subscription price for the 615,000,000 shares subscribed by the Parent Company in BEST. Subscription payable as of December 31, 2015 and 2014 amounted to ₱129,625,000 (see Note 10).

On July 2, 2015 and October 21, 2015, the BOD and the shareholders, respectively, approved the change in the name of the Parent Company from “Minerales Industrias Corporation” to “IPM Holdings, Inc.” and the change in the Parent Company’s ticker symbol from “MIC” to “IPM”. The SEC approved the Parent Company’s Amended Articles of Incorporation indicating the change in the name of the Parent Company on November 25, 2015.

The Parent Company’s shares are publicly traded in the Philippine Stock Exchange (PSE). As of December 31, 2015 and 2014, the percentage ownership of the top four beneficial shareholders of the Parent Company follows:

| | Percentage of ownership |
|--------|--------------------------------|
| IPMCDC | 51% |
| IPMESI | 10% |
| IPMRDC | 7% |
| Public | 32% |

IPMCDC, IPMESI and IPMRDC were incorporated in the Philippines. The ultimate parent company is IPMCDC.

The Parent Company’s unissued authorized capital stock amounted to ₱50,000,000 as of December 31, 2015 and 2014 (see Note 8).

The Parent Company’s subsidiary, BEST, was incorporated in the Philippines. BEST is engaged in contracting and consulting business for waste management, public cleansing, sanitation and general hygiene to provide comprehensive waste disposal services (see Note 6).

The accompanying financial statements were authorized for issue by the BOD, as endorsed by the Audit Committee, on March 30, 2016.

2. Summary of Significant Accounting Policies

Basis of Preparation

The accompanying parent company financial statements have been prepared on a historical cost basis. These parent company financial statements are presented in Philippine Peso (₱), the Parent Company's functional currency. All amounts are rounded to the nearest peso unit unless otherwise indicated.

The Parent Company also prepares and issues financial statements for the same period as the separate financial statements presented in compliance with PFRS. These financial statements may be obtained at the Parent Company's registered office address or from the SEC.

Statement of Compliance

The parent company financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

Change in presentation of the parent company statements of comprehensive income

In 2014, the Parent Company opted to present its other comprehensive income in a single-linked statement since the Parent Company no longer has any items of other comprehensive income in its 2014 parent company financial statements, including the 2013 and 2012 comparative statements. Previously, the Parent Company presented its other comprehensive income using two-linked statements.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following amended PFRS, which became effective on January 1, 2015. Except as otherwise indicated, the adoption of these new accounting standards and amendments has no material impact on the Parent Company's financial statements.

- PAS 19, *Employee Benefits - Defined Benefit Plans: Employee Contributions* (Amendments)
- *Annual Improvements to PFRSs (2010-2012 cycle)*

The Annual Improvements to PFRSs (2010-2012 cycle) contain non-urgent but necessary amendments to the following standards:

 - PFRS 2, *Share-based Payment - Definition of Vesting Condition*
 - PFRS 3, *Business Combinations - Accounting for Contingent Consideration in a Business Combination*
 - PFRS 8, *Operating Segments - Aggregation of Operating Segments and Reconciliation of the Total of the Reportable Segments' Assets to the Entity's Assets*
 - PAS 16, *Property, Plant and Equipment*, and PAS 38, *Intangible Assets - Revaluation Method - Proportionate Restatement of Accumulated Depreciation*
 - PAS 24, *Related Party Disclosures - Key Management Personnel*
- *Annual Improvements to PFRSs (2011-2013 cycle)*

The Annual Improvements to PFRSs (2011-2013 cycle) contain non-urgent but necessary amendments to the following standards:

 - PFRS 3, *Business Combinations - Scope Exceptions for Joint Arrangements*
 - PFRS 13, *Fair Value Measurement - Portfolio Exception*
 - PAS 40, *Investment Property*

There are new PFRS, amendments, annual improvements and interpretations to existing standards that are effective for periods subsequent to 2015 and these will be adopted on their effectivity dates in accordance with the transition provisions. Except as otherwise stated, these amendments and improvements to PFRS and new standard are not expected to have any significant impact on the Parent Company's financial statements.

Effective in 2016

- PAS 1, *Presentation of Financial Statements - Disclosure Initiatives*
- PAS 16, *Property, Plant and Equipment*, and PAS 38, *Intangible Assets - Clarification of Acceptable Methods of Depreciation and Amortization* (Amendments)
- PAS 16, *Property, Plant and Equipment*, and PAS 41, *Agriculture - Bearer Plants* (Amendments)
- PAS 27, *Separate Financial Statements - Equity Method in Separate Financial Statements* (Amendments)

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying PFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively. For first-time adopters of PFRS electing to use the equity method in its separate financial statements, they will be required to apply this method from the date of transition to PFRS. The amendments are effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. The Parent Company is currently assessing the impact of these amendments in its financial statements.

- PFRS 10, 12 and PAS 28, *Investment Entities - Applying the Consolidation Exception*
- PFRS 10, *Financial Statements* and PAS 28, *Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- PFRS 11, *Joint Arrangements - Accounting for Acquisitions of Interests in Joint Operations* (Amendments)
- PFRS 14, *Regulatory Deferral Accounts*
- *Annual Improvements to PFRSs (2012-2014 cycle)*

The Annual Improvements to PFRSs (2012-2014 cycle) are effective for annual periods beginning on or after January 1, 2016.

- PFRS 5, *Non-current Assets Held for Sale and Discontinued Operations - Changes in Methods of Disposal*
- PFRS 7, *Financial Instruments: Disclosures - Servicing Contracts*
- PFRS 7 - *Applicability of the Amendments to PFRS 7 to Condensed Interim Financial Statements*
- PAS 19, *Employee Benefits - regional market issue regarding discount rate*
- PAS 34, *Interim Financial Reporting - disclosure of information 'elsewhere in the interim financial report'*

Effective in 2018

- PFRS 9, *Financial Instruments - Classification and Measurement* (2010 version)
- PFRS 9, *Financial Instruments - Hedge Accounting* and amendments to PFRS 9, PFRS 7 and PAS 39 (2013 version)
- PFRS 9, *Financial Instruments* (2014 or final version)

The following new standard issued by the International Accounting Standards Board (IASB) has not yet been adopted by Financial Reporting Standards Council (FRSC), Board of Accountancy (BOA) and Professional Regulation Commission (PRC)

- *IFRS 15, Revenue from Contracts with Customers*
This standard was issued in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. The effectivity of IFRS 15 was deferred until the issuance of the final revenue standards by IASB. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach to measuring and recognizing revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under PFRS. Either a full or modified retrospective application is required for annual period beginning on or after 1 January 2018 with early adoption permitted. The Parent Company is currently assessing the impact of IFRS 15 and plans to adopt the new standard on the required effective date, once adopted locally.
- *IFRS 16, Leases*
This standard requires lessees to account for all leases under a single on-balance sheet model (subject to certain exemptions) in a similar way to finance leases under PAS 17. Lessees recognize a liability to pay rentals with a corresponding asset, and recognize interest expense and depreciation separately. The new standard includes two recognition exemptions for lessees - leases of 'low-value' assets (e.g., personal computer) and short-term leases (i.e., leases with a lease term of 12 months or less). Reassessment of certain key considerations (e.g., lease term, variable rents based on an index or rate, discount rate) by the lessee is required upon certain events. Lessor accounting is substantially the same as today's lessor accounting, using PAS 17's dual classification approach. IFRS 16 is effective for annual periods beginning on or after 1 January 2019. Earlier application is permitted for entities that apply IFRS 15, *Revenue from Contracts with Customers* at or before the date of initial application of IFRS 16. The Parent Company is currently assessing the impact of IFRS 16 and plans to adopt the new standard on the required effective date, once adopted locally.

Cash

Cash includes cash on hand and deposits held on demand with banks and are carried in the parent company statement of financial position at face amount and earn interest based on the prevailing bank deposit rates.

Financial Instruments

Date of recognition

The Parent Company recognizes a financial asset or a financial liability on the parent company statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the trade date.

Initial recognition

All financial assets are initially recognized at fair value. Except for financial assets at fair value through profit or loss (FVPL), the initial measurement of financial assets includes transaction costs. The Parent Company classifies its financial assets in the following categories: financial assets at FVPL, held-to-maturity (HTM) investments, available-for-sale (AFS) financial assets, and loans and receivables. Financial liabilities are classified as either financial liabilities at FVPL or other financial liabilities. The classification depends on the purpose for which the investments were acquired and whether these are quoted in an active market. Management determines the

classification of its investments at initial recognition and, where allowed and appropriate, re-evaluates such designation at every reporting date.

Financial instruments are classified as liability or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits.

As of December 31, 2015 and 2014, the Parent Company has no financial assets and liabilities at FVPL, AFS financial assets and HTM investments.

Day 1 difference

Where the transaction price in a non-active market is different from the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Parent Company recognizes the difference between the transaction price and fair value ('Day 1' profit or loss) in profit or loss unless it qualifies for recognition as some type of asset or liability. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Parent Company determines the appropriate method of recognizing the 'Day 1' profit or loss amount.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not designated as AFS financial assets or financial assets at FVPL.

After initial measurement, the loans and receivables are subsequently measured at amortized cost using the effective interest rate method, less any allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. The amortization is included in the interest income in profit or loss. The losses arising from impairment of such loans and receivables are recognized in provision for impairment losses in profit or loss. This accounting policy relates to the Parent Company's "Cash" and "Receivables".

Other financial liabilities

Other financial liabilities pertain to issued financial instruments that are not classified or designated as at FVPL and contain contractual obligations to deliver cash or another financial asset to the holder or to settle the obligation other than the exchange of a fixed amount of cash. After initial measurement, other financial liabilities are subsequently measured at amortized cost using the effective interest rate. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate. This accounting policy applies primarily to the Parent Company's accrued expenses and other payables and other obligations that meet the above definition (other than liabilities covered by other accounting standards, such as income tax and taxes payable).

Financial instruments are classified as liability or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability, are reported as expense or income. Distributions to holders

of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the parent company statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amount and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Impairment of Financial Assets

The Parent Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Loans and receivables

For loans and receivables carried at amortized cost, the Parent Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Parent Company determines that no objective evidence of impairment exists for individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognized, are not included in a collective assessment for impairment.

If there is objective evidence that an impairment loss on loans and receivables carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the financial assets' original effective interest rate (i.e., the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss shall be recognized in profit or loss during the period in which it arises.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

In relation to loans and receivables, a provision for impairment is made when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the Parent Company will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount of the receivable is reduced through the use of an allowance account. Impaired loans and receivables are derecognized when they are assessed as uncollectible.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of such credit risk characteristics as past-due status and term. Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the Parent Company. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. Estimates of changes in future cash flows reflect, and are directionally consistent with the changes in related observable data from period to period (such as changes in unemployment rates, property prices, commodity prices, payment status, or other factors that are indicative of incurred losses in the Parent Company and their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Parent Company to reduce any difference between loss estimate and actual loss experience.

Derecognition of Financial Assets and Liabilities

Financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of financial assets) is derecognized when:

- a. the right to receive cash flows from the asset has expired;
- b. the Parent Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- c. the Parent Company has transferred its right to receive cash flows from the asset and either (i) has transferred substantially all the risks and rewards of the asset, or (ii) has neither transferred nor retained the risks and rewards of the asset but has transferred the control of the asset.

Where the Parent Company has transferred its right to receive cash flows from an asset or has entered into a “pass-through” arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Parent Company’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Parent Company could be required to repay.

Financial liability

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the profit or loss.

Investment in a Subsidiary

A subsidiary is an entity in which the Parent Company exercises control over the operation and management of the subsidiary. The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

An investor controls an investee if and only if the investor has all the following:

- power over the investee
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to effect the amount of the investor's returns.

The Parent Company's investment in a subsidiary is accounted for in the parent company financial statements under the cost method of accounting.

The reporting dates of the subsidiary and the Parent Company are identical and the subsidiary's accounting policies conform to those used by the Parent Company for like transactions and events in similar circumstances.

The Parent Company recognizes dividend income from its subsidiary once the subsidiary declared dividends.

Impairment of Nonfinancial Asset

The Parent Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Parent Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. Impairment losses are recognized in profit or loss in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase in other comprehensive income. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or most advantageous market must be accessible to the Parent Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the assets or liability, assuming that market participants act in their economic best interest.

Fair value hierarchy

The Parent Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable in the market, either directly or indirectly; and

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

Financial assets

The fair values for financial instruments traded in active markets at the reporting date are based on their quoted market price which is between the bid and ask prices spread, without any deduction for transaction costs. When current market prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction.

For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist, option pricing models, and other relevant valuation models. Any difference noted between the fair value and the transaction price is treated as expense or income, unless it qualifies for recognition as some type of asset or liability.

Nonfinancial asset

Fair value measurement of nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Parent Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Parent Company's management determines the policies and procedures for both recurring fair value measurement, such as unquoted AFS financial assets, and for non-recurring fair value measurement.

At each reporting date, management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Parent Company's accounting policies. For this analysis, management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Parent Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Other Current Assets

Other current assets represent expenses not yet incurred but already paid in advance. These are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit and loss as the benefits are consumed in operations or expired with the passage of time.

Equity

Capital stock

Capital stock is measured at par value for all shares issued and outstanding. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Deficit

Deficit represents the cumulative amount of net losses of the Parent Company.

Revenue Recognition

Revenue is recognized to the extent that it is probable that future economic benefits will flow to the Parent Company and the revenue can be reliably measured. Regardless of when the payment is being made, revenue is measured at fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty.

Interest income

Interest income is recognized as the interest accrues, taking into account the effective yield on the asset.

Expenses

Expenses are decreases in economic benefits during the accounting period in the form of outflows or decreases of assets or incurrence of liabilities that result in decreases in equity, other than those relating to distributions to equity participants. Expenses are recognized in profit or loss in the period these are incurred.

Income tax

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as of the reporting date.

Deferred tax

Deferred income tax is provided, using the balance sheet liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences with certain exceptions. Deferred income tax assets are recognized for all deductible temporary differences and net operating loss carry over (NOLCO) to the extent that it is probable that future taxable income will be available against which the deductible temporary differences and NOLCO can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred tax assets are reassessed as of the reporting period and are recognized to the extent that it has become probable that future taxable income will allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that is applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted as at the reporting period.

Deferred tax relating to items recognized outside profit or loss is recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Value-added tax (VAT)

Revenue, expenses and assets are recognized net of the amount of sales tax except:

- where the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case the tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and,
- Receivables and payables that are stated with the amount of tax included.

The net amount of tax recoverable from the tax authority is included as part of “Other current assets” in the parent company statement of financial position.

Operating Segment

The Parent Company’s operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Disclosure of segment information is presented in Note 11.

Provisions

Provisions are recognized when the Parent Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Where the Parent Company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the profit or loss, net of any reimbursement.

Contingencies

Contingent liabilities are not recognized in the parent company financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the parent company financial statements but are disclosed when an inflow of economic benefits is probable.

Events After the Reporting Date

Post year-end events that provide additional information about the Parent Company's financial position at the reporting date (adjusting events) are reflected in the parent company financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the parent company financial statements when material.

3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the accompanying parent company financial statements in conformity with PFRS requires the Parent Company to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. However, future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the parent company financial statements as they become reasonably determinable. Actual results could differ from such estimates.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting period, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year, are discussed as follows.

Estimating allowance for impairment losses on receivables

The Parent Company maintains allowance for impairment loss on its receivables at a level adequate to provide for any potential uncollectible receivables. The level of this allowance is regularly evaluated by the Parent Company. The Parent Company assesses whether objective impairment exists for the receivable by considering the financial condition and credit history of the counterparty. Moreover, the Parent Company also considers its historical loss experience in assessing collective impairment of receivables. The Parent Company reviews the status of the receivables and identifies amounts that are to be provided with allowance on a continuous basis.

As of December 31, 2015 and 2014, receivables amounting to ₱1,066,172 have been fully provided with allowance for impairment losses since management believes that these receivables will not be recovered.

Impairment of nonfinancial assets

The Parent Company assesses impairment on non-financial assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. This includes considering certain indications of impairment such as significant changes in asset usage, significant decline in assets' market value and significant negative industry or economic trends. The Parent Company recognizes an impairment loss if such indications are present and whenever the carrying amount of an asset exceeds its recoverable amount.

This requires the Parent Company to make estimates and assumptions that can materially affect the Parent Company financial statements. Future events could cause the Parent Company to conclude that these assets are impaired. Any resulting additional impairment loss could have a material adverse impact on the Parent Company's financial condition.

The carrying amount and the related impairment loss of prepaid taxes, creditable withholding tax and input VAT are disclosed in Note 5. The Parent Company recognized impairment loss amounting to ₱183,061 and ₱216,180 in 2015 and 2014, respectively. As of December 31, 2015 and 2014, the Parent Company's other current assets amounting to ₱28,000 and ₱13,333 respectively are recoverable (see Note 5). As of December 31, 2015 and 2014, there were no impairment indicators noted in the investment in a subsidiary amounting to ₱485,375,000 (see Note 6).

Recognition of deferred tax assets

As of December 31, 2015 and 2014, deferred tax assets have not been recognized in respect of carryforward benefits of NOLCO that are available for offset against future taxable income for three succeeding years because management believes that it is more likely than not that the tax benefits will not be realized in the future. As of December 31, 2015 and 2014, unrecognized deferred tax assets amounted to ₱3,947,267 and ₱3,659,947, respectively (see Note 9).

4. Cash

| Less allowance for impairment losses | 4,764,198 | 4,581,137 |
| | ₱28,000 | ₱13,333 |

The movement in allowance for impairment losses follows:

| | 2015 | 2014 |
|---------------------------------|-------------------|------------|
| Balance at beginning of year | ₱4,581,137 | ₱4,364,957 |
| Provision for impairment losses | 183,061 | 216,180 |
| Balance at end of year | ₱4,764,198 | ₱4,581,137 |

The Parent Company provided an allowance for impairment on its prepaid taxes, creditable withholding tax and input VAT amounting to ₱4,764,198 and ₱4,581,137 as of December 31, 2015 and 2014, respectively, due to low probability that these assets may be utilized in the future.

6. Investment in a Subsidiary

The movement in the Parent Company's investment in a subsidiary, BEST, follows:

| | 2015 | 2014 |
|------------------------------|---------------------|--------------|
| Balance at beginning of year | ₱485,375,000 | ₱462,500,000 |
| Payment of subscription | - | 22,875,000 |
| Balance at end of year | ₱485,375,000 | ₱485,375,000 |

BEST was incorporated in the Philippines and is engaged in contracting and consulting business for waste management, public cleansing, sanitation and general hygiene to provide comprehensive waste disposal services.

On November 20, 2012, the Parent Company's BOD authorized the acquisition of 615,000,000 shares in BEST at par value of ₱1 per share, which constitute 75% of the resulting outstanding capital of BEST. Further, the Parent Company was authorized to partially pay for the 615,000,000 shares in BEST as follows: (a) ₱450,000,000 for the 600,000,000 shares that will come from the increase in authorized capital stock of BEST; and (b) ₱12,500,000 for the subscription rights to 15,000,000 shares in BEST.

On March 4, 2013, the Parent Company acquired 615,000,000 shares in BEST representing 75% interest and paid ₱462,500,000.

On February 10, 2014, the BOD approved the payment to BEST of ₱22,875,000 representing 15% of the unpaid balance on the total subscription price for the 615,000,000 shares subscribed by the Parent Company in BEST. Subscription payable as of December 31, 2015 and 2014 amounted to ₱129,625,000 (see Note 10).

The Parent Company accounts for its investment in BEST at cost.

Summarized below is the financial information of BEST as of December 31:

Taxes payable pertains to liabilities for withholding tax on compensation and expanded withholding tax as of December 31, 2015 and 2014. Accrued expenses and taxes payable are non-interest-bearing and are generally payable within 30- to 60- day terms.

8. Equity

Capital Stock

The authorized capital stock of the Parent Company with par value of ₱1 per share follows:

| | 2015 | 2014 |
|---|-------------|-------------|
| Number of shares authorized to issue: | | |
| At beginning and end of year | 740,000,000 | 740,000,000 |
| Number of shares issued and outstanding: | | |
| At beginning and end of year | 690,000,000 | 690,000,000 |

In accordance with Annex 68-D of SRC Rule 68, below is a summary of the Parent Company's track record of registration of securities.

| Common Shares | Number of Shares Registered | Issue/Offer Price | Date of Approval |
|---------------|-----------------------------|-------------------|------------------|
| 180,000,000 | 180,000,000 | ₱1.00 | August 31, 1995 |
| 10,000,000 | 10,000,000 | 1.00 | April 14, 2010 |

| 690,000,000 | 690,000,000 | | |

On February 8, 2013, the stockholders of the Parent Company representing at least two thirds of the outstanding capital stock approved the subscription by the following companies within the IPM Group or any of their designees/nominees to a total of 500,000,000 shares out of the ₱500,000,000 increase in the authorized capital stock at a total subscription price of ₱500,000,000, which was paid as follows: (a) IPMCDC-₱350,000,000; (b) IPMESI-₱100,000,000; and (c) IPMRDC-₱50,000,000.

The Parent Company received deposit on future stock subscription from these companies on February 11, 2013 and February 12, 2013 amounting to ₱50,000,000 and ₱450,000,000, respectively, for the said subscription, which was subsequently transferred to common shares following the approval of SEC of the application for increase in authorized shares of the Parent Company on June 11, 2013.

The number of holders of securities of the Parent Company as of December 31, 2015 and 2014 is 118 shareholders and 121 shareholders, respectively.

9. Income Tax

The provision for income tax consists of final tax on interest income.

The Parent Company's unrecognized deferred tax asset as of December 31, 2015 and 2014 pertains to the Parent Company's NOLCO amounting to ₱13,157,555 and ₱12,199,823, respectively. The tax effect of these NOLCO amounted to ₱3,947,267 and ₱3,659,947 as of December 31, 2015 and 2014, respectively.

The Parent Company's deferred tax assets were not recognized in the books because management believes that it is not probable that future taxable profits will be available against which these can be utilized in the future before the carryforward benefit expires. The Parent Company will recognize a previously unrecognized deferred tax asset to the extent that it becomes probable that future taxable income will allow the carryforward benefit of NOLCO to be recovered.

The Parent Company's NOLCO as of December 31, 2015 consists of:

| Year Incurred | Amount | Expiry Date |
|---------------|--------------------|-------------|
| 2013 | ₱7,137,132 | 2016 |
| 2014 | 3,354,805 | 2017 |
| 2015 | 2,665,618 | 2018 |
| | ₱13,157,555 | |

The movements in NOLCO follow:

| | 2015 | 2014 |
|------------------------------|--------------------|-------------|
| Balance at beginning of year | ₱12,199,823 | ₱10,285,862 |
| Addition | 2,665,618 | 3,354,805 |
| Expiration | (1,707,886) | (1,440,844) |
| Balance at end of year | ₱13,157,555 | ₱12,199,823 |

The reconciliation between the statutory income tax and the effective income tax follows:

| | 2015 | 2014 | 2013 |
|--|-------------------|--------------|--------------|
| Statutory income tax | (₱894,786) | (₱1,116,638) | (₱2,229,373) |
| Add (deduct) tax effects of: | | | |
| Change in unrecognized deferred tax assets | 799,685 | 1,006,442 | 2,141,140 |

| Interest income subjected to final tax | (954) | (5,837) | (13,761) |
| Effective income tax | ₱1,908 | ₱11,674 | ₱27,523 |

10. Related Party Transaction

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These include: (a) parties owning, directly or indirectly through one or more intermediaries, control, or are controlled by, or under common control with, the Parent Company; (b) associates; and (c) individual owning, directly or indirectly, an interest in the voting power of the Parent Company that gives them significant influence over the Parent Company and close members of the family of any such individuals.

The following table provides the total amount of transactions and outstanding balances that have been entered into with related parties for the relevant financial year:

| Category | Amount | | Outstanding Balance | | Terms | Conditions |
|------------------------------|-----------------|---------|---------------------|-------------|--------------------|------------|
| | 2015 | 2014 | 2015 | 2014 | | |
| <i>Subsidiary</i> | | | | | | |
| BEST | | | | | | |
| Rent (c) | ₱321,429 | ₱- | ₱- | ₱- | Due and demandable | Unsecured |
| Subscription payable (d) | - | - | 129,625,000 | 129,625,000 | Due and demandable | Unsecured |
| <i>Other related parties</i> | | | | | | |
| GNCA Holdings, Inc.(GNCA) | | | | | | |
| Utilities (a) | 180,000 | 180,000 | - | - | Due and demandable | Unsecured |
| Directors | | | | | | |
| Directors' per diem (b) | 320,000 | 240,000 | - | - | Due and demandable | Unsecured |

- a. The Parent Company entered into an agreement with GNCA, an entity controlled by one of the Parent Company's BOD, for the sharing of common costs incurred on the leased office space. The agreement provides that the Parent Company shall pay fixed monthly utility charges of ₱15,000 in 2015 and 2014, in lieu of its proportionate share in monthly rentals on the leased premises.
- b. In 2015 and 2014, the BOD approved the grant of per diem to members of the BOD amounting to ₱20,000 for the Chairman, ₱10,000 for regular directors and ₱10,000 for independent directors for every attendance at regular meetings of the BOD.
- c. On January 12, 2015, the Parent Company entered into a contract of lease with BEST for rental of office space amounting to ₱15,000 per month inclusive of utilities or ₱180,000 per year. The contract retroactively covers the period from October 2014 to October 2015. The contract of lease was renewed for another year.
- d. Subscription payable of the Parent Company to BEST amounted to ₱129,625,000 as of December 31, 2015 and 2014 which was offset against the Parent Company's investments in a subsidiary (see Note 6).

11. Segment Information

For management reporting purposes, the Parent Company's activities are organized in one operating segment. As of December 31, 2015, the segment's assets and liabilities amounted to ₱487.84 million and ₱0.43 million, respectively. As of December 31, 2014, the segment's assets and liabilities amounted to ₱490.64 million and ₱0.25 million, respectively. In 2015 and 2014, the segment's source of revenue is interest income. The segment's net loss amounted to ₱2.98 million, ₱3.73 million, and ₱7.46 million in 2015, 2014 and 2013, respectively.

The Parent Company has no revenue outside the Philippines and no revenue from a single customer, hence, the Parent Company did not present geographical information required by PFRS 8, *Operating Segments*.

12. Financial Instruments

Fair Value Information

Due to the short-term nature of the Parent Company's financial instruments, their fair values approximate their carrying amounts as of December 31, 2015 and 2014.

Fair Value Hierarchy

As of December 31, 2015 and 2014, the Parent Company has no financial assets carried in the books at fair value. There were no transfers between Level 1 and Level 2 financial instruments, and no transfers into or out of Level 3 fair value instrument.

Financial Risk Management Objectives and Policies

The Parent Company's principal financial instruments comprise of cash and accrued expenses and other payables. The main purpose of the Parent Company's financial instruments is to fund its operational and capital expenditures.

The main risks arising from the Parent Company's financial instruments are credit risk and liquidity risk. The main objectives of the Parent Company's financial risk management are as follows:

- to identify and monitor such risks on an ongoing basis;
- to minimize and mitigate such risks; and
- to provide a degree of certainty about costs.

Credit risk

The investment of the Parent Company's cash resources is managed so as to minimize risk while seeking to enhance yield. The Parent Company's holding of cash exposes the Parent Company to credit risk if the counterparty is unwilling or unable to fulfill its obligations, and the Parent Company consequently suffers financial loss. Credit risk management involves entering into financial instruments only with counterparties with acceptable credit standing. The Parent Company's maximum exposure to credit risk pertains only to cash in bank amounting to ₱2,432,836 and ₱5,250,192 as of December 31, 2015 and 2014, respectively.

The gross maximum exposure to credit risk of the Parent Company approximates its net maximum exposure. There were no amounts that are set-off with the criteria in PAS 32, *Financial instruments: Disclosures - Offsetting Financial Assets and Financial Liabilities*. There are no amounts subject to an enforceable master netting arrangement or similar agreement as of December 31, 2015 and 2014.

The Parent Company's cash in bank has high grade credit quality. The credit quality of the financial assets was determined based on the nature of the counterparty and the Parent Company's historical experience with them.

As of December 31, 2015 and 2014, the Parent Company's receivable amounting to ₱1,066,172 is fully impaired.

Liquidity risk

Liquidity or funding risk is the risk associated with the difficulty of selling financial assets in a timely manner at their values to meet obligations.

The Parent Company seeks to manage its liquidity profile to be able to finance capital expenditures and working capital requirements.

The Parent Company's accrued expenses and other payables excluding taxes payable are all due within one year.

Capital management

The primary objective of the Parent Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Parent Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions.

As of December 31, 2015 and 2014, the Parent Company has a deficit of ₱202,588,481 and ₱199,603,954, respectively. In 2013, following the receipt of capital infusion from IPM Group of Companies, the Parent Company acquired 75% interest in BEST, an investment that is expected to improve its financial condition. Following the subscription agreement with IPMCDC, IPMESI and IPMRDC, the Parent Company became part of the IPM Group of Companies on March 4, 2013.

The Parent Company is not exposed to externally imposed capital requirements.

(b) Provide a brief summary of the corporate governance policy that the board of directors has adopted. Please emphasis the policy/ies relative to the treatment of all shareholders, respect for the rights of minority shareholders and of other stakeholders, disclosure duties, and board responsibilities.

The Board of Directors of the Company has adopted a Manual on Corporate Governance that seeks to institutionalize the principles of good corporate governance in the entire organization. The Company has only one class of share, with one-share-one-vote policy. It gives minority stockholders the right to elect, remove and replace directors and vote on certain corporate acts in accordance with the Corporation Code. Cumulative voting is used in the election of directors.

The Board shall encourage the exercise of shareholders' voting rights and the solution of collective action problems through appropriate mechanism.

Respect for the rights of minority shareholders and of other stakeholders

The minority shareholders shall be granted the right to propose the holding of a meeting, and the right to propose items in the agenda of the meeting, provided the items are for legitimate business purposes.

Disclosure Duties

The essence of corporate governance is transparency. The Board should be transparent, the more transparent the internal workings of the corporation are, the more difficult it will be for Management and dominant stockholders to mismanage the corporation or misappropriate its assets. The Board shall commit at

all times to fully publicly disclose all material information that could potentially affect share price. Such information shall include earnings results, acquisition or disposal of assets, board changes, related party transactions, shareholdings of directors and changes to ownership. All required information are fully disclosed to the SEC and the PSE.

Board Responsibilities

It shall be the Board's responsibility to foster the long-term success of the Corporation and secure its sustained competitiveness in a manner consistent with its fiduciary responsibility, which it shall exercise in the best interest of the Corporation, its shareholders and other stakeholders. The Board shall conduct itself with utmost honesty and integrity in the discharge of its duties, functions and responsibilities. Their responsibilities to the Company includes the: a) review and approval of the interim and annual financial performance; b) approval of the Company's key strategic and operational matters; c) approval of major investments and funding decision; d) monitoring of internal control; and d) identification and management of the principal risk of the Company.

(c) **How often does the Board review and approve the vision and mission?** As often as necessary. Considering the recent commencement of business operations of the Company, the Company will adopt a policy of regularly reviewing its vision and mission.

2) Chairman and CEO

(a) Do different persons assume the role of Chairman of the Board of Directors and CEO? If no, describe the checks and balances laid down to ensure that the Board gets the benefit of independent views.

Yes No

Identify the Chair and CEO:

| | |
|-----------------------|----------------------|
| Chairman of the Board | Isabelita P. Mercado |
| CEO/President | Isabelita P. Mercado |

(b) Roles, Accountabilities and Deliverables

Define and clarify the roles, accountabilities and deliverables of the Chairman and CEO.

| | Chairman | Chief Executive Officer |
|------------------|--|---|
| Role | The Chairman of the Board shall exercise such powers and perform such duties as the Board of Directors may assign to her. She ensures an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision making. | The President shall be the Chief Executive Officer of the Corporation and also have the general supervision and management of the business affairs and property of the corporation. She shall initiate and develop corporate objectives and policies and formulate long range projects, plans and programs for the approval of the Board. |
| Accountabilities | She shall preside at the meetings of the directors and the stockholders. | Implementation of policies approved by the Board. |
| Deliverables | Ensure that there is an effective line of communication between the executive and non-executive directors. | Ensure that financial results, business strategies and targets are communicated to the stakeholders. |

3) Explain how the board of directors plan for the succession of the CEO/Managing Director/President and the top key management positions?

The Board shall create a Nomination Committee to review and evaluate the qualifications of all persons nominated to the Board as well as those nominated to other positions requiring appointment by the Board of Directors. It should prepare a description of roles and capabilities required of a particular appointment.

4) Other Executive, Non-Executive and Independent Directors

Does the company have a policy of ensuring diversity of experience and background of directors in the board? Please explain.

The Directors must have sufficient experience in managing the business to substitute for such formal education. They must also be assiduous and should be persons of integrity and probity.

Does it ensure that at least one non-executive director has an experience in the sector or industry the company belongs to? Please explain.

While there is no formal written policy on the matter, the Board deems it to the best interest of the company that at least one non-executive director has experience in the industry that the Company shall henceforth operate in so that it can fully understand the peculiar requirements of doing business in such industry.

Define and clarify the roles, accountabilities and deliverables of the Executive, Non-Executive and Independent Directors:

| | Executive | Non-Executive | Independent Director |
|------------------|--|---|---|
| Role | Ensure proper implementation of Board approved policies. | Review and monitor Board policies to ensure that address the requirements and needs of the Company. | Oversight of company financial reporting process and disclosure of its financial information. |
